

Transcription completed for: 198. LIFERS - Lorri Francis

Transcript:

Wow. Hell yeah, right. Good-Bye Baby dance with me. Here we go.

Did you get a new chef?

There we go.

The Last Dance from the beginning.

I do love the most.

Cute photos.

Guns, N Roses, the rule that Cobain pussy have to come around and ruin it all.

Play something. I hated the fucking 90s.

It's the lifers podcast. Dave Rodriguez, and then riser.

And now here Scott Jade and Ben.

Fuzzy Ice Cream Sandwich. Ben, it's not bad, not bad.

Boo. Boo. It

No. No. I'm ready? Are you? Yeah, you have something you want to start us off with cuz I've got some stuff to what have you got? That's so great that supposed to have been for me to take a bite. And then you asked me to talk to, you haven't gave him the originator of its mother fucker. Anytime, babe. I'm punk. Punk, punk, punk. Punk unplugged on Gabe wireless earbuds for years, cuz I hate being Tethered to my freaking computer when I'm working. You mean these? Yes, I've been looking them up and I'm like

Which one do I get? I don't know if I want to get the ones that are comfortable steel gears, get the ones that sound the past, get the noise cancelling. I don't know what they did, who knows get the noise cancelling? Ones that sound the best and make sure they're comfortable for your ears.

Just get one from Apple and probably got to get the, get the noise cancelling.

You're able to leave me, you're going to need the noise cancelling ones.

I'm on the stupid. I'm on, I'm on the hardwood floor with my wired ear ear plugs in and I decided, you know what time is court over and get something off my table over here and make a package together. Nicely my freaking work chair with my earphones in plugged into the computer and shocked, the hell out of myself in the ears, lips and then fingers my toes. You can suck on a hold of. You remember, remember that slide in the chair over with my earphones in plugged in? Where do you do about? Your floor, is your floor is linoleum lpv luxury, vinyl planks, whatever you call it. Lvp

But I got shot, I guess, myself like I'm an idiot. Why would I do that as both ears?

NACA it sucks. Try it. It's permanent somebody out there. Electric shock therapy, is it. Do you need me to come over and put a pillow over your face? And how could it not be a reference to a movie to reference the after-hours? Anytime Gabe. Alright, game. Who's on the show today today? It's been years in the making

Lori Francis of Fame from Chicago's lure of early clubs. Dance clubs in mitosis. When you come up with these intros, do you just for this? You have a dart board with a bunch of words and you just throw darts at it is a legend in Chicago's, history of Florida State. And how should people know Lori? I'm on a business relationship. When I was representing local agency, was representing. Dumbledore we'd meet

Because she was the manager and instead of the bands and stuff like that, that's what happened. And I had to front, you know, we call it

when you advance the show because I thought it was enjoying this but I'm not she's she's she's a staple, she knows the scene, she's been around, she's worth it more clubs and you've had hot meal hot, hot shots in your ears Lori. Francis is on the show about Medusa's Dumbledore and

A place that we liked to infection referred to as the pee pee pee.

OK, Google into that later, that's what it's going to be Gabe's next tattoo.

Then what have you got? Are you done with the ice cream bar? I am playing with John. Yeah, it was good huh? I like to do. I like to eat ice cream sandwich and then as soon as I'm done eating the ice cream sandwich and I to eat a real fast. So my mouth is super cold. Then I drink some water and that's the best water you'll ever have cuz your mouth is called. So the water looks too late, you got to do it immediately. After you're done with the ice cream sandwich,

Okay, hold makes you extra thirsty and your mouth is cold. So the water can't be warmed up by, you know, a hot warm mouth. Chris. Yeah, you can see far. Yeah, yeah. I think this pain came up last week on the show, The Cult. And then what are you talkin about? The last, you're going to show up and if you guys are familiar with this, but they're called, The Cult has your son been? We haven't heard of yet, they called Remember, called came up last week. Exactly. But that was

a band that I kind of avoided all through college and everyone else had that album. I forget what you said. You love so much love. I like love, I like electric which one came first lover, Electric.

Love came first. Okay, what's the hit off of electric? Wildflower, Love Removal Machine. Peace dog. Lil devil.

Well, I took a little girl. I spent like an hour watching, Howard Stern this year, or last year, they weren't worn out right there. They're reunited, aren't they ask me all these questions cuz I thought you I thought I'd recently.

No, I have seen them in the past but not recently. Are they out on tour for their 40th anniversary of love?

What's the 40th anniversary of them? Being a band and there's some but they're promoting new edition of Love. Last week, we did 1985 and Frank's Choice was love from the cult. That's why this came up. So next year, they're about to get into that. My favorite movie from 1985, of course, is after

Hours.

Gone. Anyway, I watch the, the Howard Stern videos great cuz they still sounds great. And then there was this other video, I guess this, the guitar player. I don't even know his fucking name is Billy. Duffy Billy Duffy has a signature Gretsch guitar that is being released or just got released. That's the white Gretsch. That have guess he had his that he believed, he's been playing it for years for years, they made like a new Billy Duffy version of it. That is a good. He's promoting sounded good but he is a lot of fun, what's the list price on that 10? I don't know. Couldn't tell you. It might be is it might be as much as she needs. Donald Trump guitars that are being sold.

I'm not taking the bait. Okay. If I'm not taking the fucking date picture of one of them today and the Frets it says make America great again.

Yeah, make America great again. Play. Shity music on your Donald Trump guitar.

Boy, my favorite song off of Love is rain. Christmas is coming up. It makes a wonderful Christmas gift.

Finally, you can play all the Kid, Rock rips, your heart desires on the Donald Trump, electric guitar only 13 or 12. Why why why why? Why has he is Kid Rock? Not in his culture, is the are you done? Now we can talk about guitars, you have something else for a long time ago or talking about the Colt videos, you're not still mad at Donald Trump videos cuz those are called videos as well. Okay. Alright, guitar in C whole video.

But his face is on the guitar, know, but he's, he, he's Hawking his fucking thing, he's hooked Wing. You want to see this picture?

I got to speak with a, I couldn't, I couldn't possibly know. I think it's real.

He does love music. This picture is credited to hint to him to stay away from the stuff that's going on, but I can't and then when Ben brings us Mac around here,

That's not real. It's a fake picture. There's no way that real band that's obviously fake.

Real from The Onion.

Infowars 102 that's not his body. That's not the body of a man with a 52 inch waist. This isn't the onion, I don't plug now, okay?

What do I get? If it turns out to be real

Nothing actually, they're not that expensive. The acoustic ones, go for 12:50, in the electric ones are 1500 bucks. All rights can up. Let me see what it looks like again.

Signed guitar sales for 10,000 10,000. So it's a guitar that looks like some assholes Truck. Yeah the eagle flag. Yeah awesome. Get it away from me.

Thank you.

It might be real looking at 18 News.

Trump. Donald Trump's latest brain Adventure is guitars that cost up to \$10,000. So it's a \$1,500 guitar, but if he signs it, it's \$10,000 cheaper at that price.

What an asshole?

Man on man.

It's okay. If I ascertained over the course of almost 200 week. I mean, if he was a baseball player, how much you think, he'd charge a kid with polio for a signed baseball Market. What do you say? You say we've cured. Polio you say not anymore. Get on it. Okay.

I seriously enough been. What else you got? You know, we talked about 38 Special last week. Remember that was that last week, special, so caught up in you. By the way, I saw the episode of English teacher that I had that song.

Did you put on the the closed caption?

Look at that was a great episode is good episode. So I was thinking about it and like we talked about a forty-year-old song, right? That's a 40 year old song but we talked about it like it was

written yesterday. Imagine talking about a 40 year old song in the 80s like it was written yesterday. You know, would have happened in the 80s. Like something from 1940.

Where is the 44? We we wouldn't know how you can say, that's because we're old, right? But I think it just proves how much the Beatles change things. We're still surrounded by. Not only the Beatles.

But everything that came in their wake, and that includes.

38 Special.

That mind-blowing in the 80s, you're not turning on the radio and hearing, you know, Cole, Porter songs. You don't ya bees do it, you know, that's not happening but you're still turning on the radio today in your hearing caught up in. You is a big chance that I can get no car right now.

Turn it on and 38 Special be on.

That's crazy.

It's got to be because of the Beatles. Write

sure. Everything's cuz of the Beatles.

But the change music that it's sort of stops and that everything is. So I got it. That's that everything before us is old music. Everything ahead of us is never going to age. That's insane.

I get you, I hear you.

All right, I'm going to check with that guitar again.

No, but I was trying to get to my point, which is that after almost 200 episodes, it finally occurred to me that Gabe. You're not, wait, where was this point? When will I know you haven't been listening me feel for your intentions, which is fine. That's your choice. When did you start this point when you were talking about the cult and rain and Billy? I like that pic. We took a brief detour about the cult.

I didn't think it was, but apparently it is, you are not. I'm making a statement, but it's really a question to cuz you can tell me. No, no, you're wrong. You don't, you don't know anything like mr. Show episode. You are not a Guitar Hero guy. Like that's not your main interest when it comes to any of this music, right? Guitar Hero, the video, no, no no, no Guitar Hero, the concept like present company excluded. Like I never hear you talk about guitars. Like, if you talk about drummers and bass player Eddie Van Halen, it's just what I've been passing, whatever am I right? Are you, that he'd rather thought you'd rather talk about Michael Anthony?

When I listen to music, I got the bass in the drums, a bass guitar more than anything. If it's, by the way, I hear the bass and drums as well. When I listen to music, I just want to get that out there. I do here. It does exist be calling you in the world.

Have a bassist and drummer Drummer is right. Like who has the best drummer of all time? In their band, Led Zeppelin, what band has an amazing bass player, who play everything. I Love Led Zeppelin on the drums and I'm just telling you

Even good guitars that they are the guitar and do what they do. They don't drown me in like this, but if we asked you to just quick name, what's your, who's your favorite guitar player? Do you say something to me? Lately come to mind. Babe Murray, Dave Murray okay.

You're predictable. Gave you you have lost your capacity to surprise consistency? Yeah. It's the hobgoblin of small minds and you my friend or Hobgoblin

Hey are we announcing stuff today? Hey let's talk about that stuff. We got a lot of stuff coming up. New Year's Eve.

Bottom Lounge.

Local H, it's an evening. With Local H for New Year's Eve. This is the first time we've ever done this, but we have a lot planned and one of those things is we're going to do an encore of whatever happened to p.j. soles. So if you were at that show, you kind of know what you're going to be in for

And we've got this whole they live thing going on. So game, or are you working on your rowdy? Rowdy, it doesn't actually asked me to do cuz I worked on stuff for months leading up to New Year's Eve and I didn't come anywhere near where that sounds can a point. Point. But I swear to God, if you will be rowdy rowdy this year, I know I got reverse mullet though.

Wow, that would be great. And then next next week, you can tell us what you think about, you. I got to watch this. People are still buzzing about your crawl review.

People are they are you seeing this stuff people? So last year on January 1st we did sort of a pyjama hangover party at Gman. Now I'm not saying that's going to happen this year but it's probably going to happen this year. So you guys going to be around right? Levers podcast lifers podcast, probably January 1st at 2 down in the supply room of G man. It's like a pink. Pussy Palace down there. That's right. And then on the 2nd we have something else and it involves the movie that involves the podcast. So, Hobart, Indiana, a screening of lifers, and a podcast.

We at the Hobart Art Theater slowly, but surely bring in the podcast, all 50 states. This will be our third state very slowly but surely but very slowly.

So that's going to be quite quite a thing. Now the tickets are not on sale but it is happening. Tickets are probably going to go on sale Monday.

Hobart art theater Hobart, Indiana. This is a great venue in. This could be perfect venue for the movie. We're going to show lifers, The Local H movie and these Knuckleheads are going to be there with me and we'll turn it into a Shell. Haven't quite figured it out, but we will figure it out and so that's New Year's Eve, New Year's Day the day after New Year's Day.

Is that what we're talking about, Gabe? That's what we're talking about. We're going to make it happen, somehow? All right, that's what that's what's happening.

Things that have been happening. I wanted to ask you because this just came up the other day and I think the cold manner mention it and I'm thinking this might be a good question to ask you.

Your thoughts, you're too. I'm Bound for the floor, hitting 100 million streams on Spotify.

Do I get a special jacket?

It's going to be something.

Oh, it's amazing. And you know with that \$322, I'm going to go wild, I'm going to build a deck.

It's got to be so cross your mind. No, I mean, I don't know, it doesn't, it doesn't mean I say what I mean.

and I've given this, I have given this some thought

It means people really like this song and they could probably take her leave. The rest of them know people people.

Give me a reading free, misreading, the people.

But what is that? It was like going to Joe Rogan crap. Is that guests? Can you just focus a lot of other shows that have those guests on them as well. Anyway, people like the song they get stuck on one song, that's what people do and the other ones, they can take her leave. Look at Led Zeppelin going to get the hundred million listens to 50 songs of there's 50. Yes you are. Maybe maybe Led Zeppelin okay? Put up freaking another band of the genre.

It's an accomplishment.

And you want me to acknowledge, I want other people to say that's a pretty cool thing. That's it.

You don't have to do anything, you really did your thing, you recorded and then you play it when you play it.

People appreciate it. I appreciate it. If a number, I'm impressed, that's it.

Ik wil. You really brought this to a standstill, didn't you? I got you, you live right down the street from me, don't you?

Yeah, I think I do you live around the corner there that I swear I saw you walking your dog to your house from here. You need you guys, I don't think you lived at 5.

Do not say where you live, I guess I'll I will probably know. Anyway.

Social security number, please.

So we were talking about this the other day. When did you move to Chicago? Are you from Chicago from LaPorte Indiana how to make myself a T1? Why? Why did you move to Chicago actually Genie? Who have the pier? And we came and lived with her. I stayed and my brother left and came back again. So,

Okay, do you go to school in Chicago?

Graduated.

That's the most that's the further it for this education. I forgot except Hard Knocks which is more than going to college that we could come and live with and I just liked it so I stayed. So how long did it take you to get involved with it? The club scene in everything? Thank well. I was working at

the store on Broadway called Xanadu clothing store, and I met my friend Robbie little

I also used to sell clothes to Shanahan's there. That's how I met him so that was a million years ago and Robbie introduced me to date Medusa and that's how the whole thing started with Dave. I mean I moved into the choir moved into the Deuces live there for years so I did. What was the room called? I want you to tailgate with that room was called

When you met when you met Dave had Medusa's been open by then. Yeah, I meant Dave and I was like

I don't know what happened. I didn't want to live where I was living anywhere. He's like, oh, you can just live here because some of the skin has we're living. There already is Mark Stevens. Do you know, Mark Stevens? What's the DJ? Yeah, he lived upstairs. So yeah, it was like a family, happy family. Did you get a job there before Dave, and nuncio opened orbit room?

Are you familiar? Not the orbit room? Now the orbit room that was on so great.

Okay, so you're bartending, you weren't in the office at this point, I was just working the door and working the new spending game and I know what Medusa's is but I explained to Ben what Medusa's was and what did juice bar? It got messed up before. Bernie Sanders mess it up. It was fun. It was open.

They don't have to close because it wasn't a liquor license. It was a lie just night were like the teen teenage like, under 18 or whatever. We come and dance and Laser Tag upstairs, and Leroy would be playing videos and they act like, you know, Mark Stephens. Terry Bristol Vale signs, a bunch of people that would DJ and, and it was only juice. So,

It was packed every ozone. Hopefully, only open on Fridays and Saturdays. I think a lot of juice to go with the alcohol that they smuggled in about that. I don't know anything about that either. We have our story. We go there and you're too young, right? It was there every weekend. Yeah, it was there. I was there for the, for the hardcore bands in the punk bands, that played upstairs.

In the room that looked what was the name of it? What's wrong with me?

It looks like a Red Rocks, like the rec room. Well, your favorite? What's your favorite bill that you went to their fans in a single day? No.

I only had like one bands that we only had one band play up there that's fine. Fast, did you a book GG Allin there. That was you that book that that was a nightmare about it should himself. Got naked, you know cut himself but the worst part he goes downstairs to get paid and I'm like no. So blue is in the office. He goes in, Cessna chair.

Yeah, and I come back in after Blues. Done painting and blue head. Wrap the chair in a garbage bag and said, this is your chair from now on.

I mean that guy was disgusting and that's the chair you're sitting in now.

I would like we kept that chair to it was then that Cher is this around the time when you meet you know all the rights of the accused guys know that's not either cuz I met Julian Ash through them. Okay. Maybe they just came in and I met them somewhere where they want me to book their band maybe. But then yeah then as I started letting them go into orbit room, they were all like and I would let them go into orbit room and told him if cops come you got to just run out the back door pop over the fence right okay no problem has to Cubby Bear.

7 in the pink. Pussy room at Medusa's work in a Cubby Bear your booking at Cubby Bear and booking. A lot of punk rock at Cubby Bear I'm going back there's so much stuff I can't think of it. Remember. I met

Sean Duffy and he started. He was putting some shows in the big room and then I met Nick, who shot, Nick Miller, and we and we start, he started booking a ton of shows there and then I also work with him later.

So yeah, I think that was like right when next started working at Jam actually like actually some of the best shows I've seen like we're both are by Nick.

Well you're going to not think that's like you don't care it like that I liked but I lost an angel but I don't know whatever the bunch of you know I never know who's watching TV, give a shot to explain to us anything about each rope.

Yeah, what do you want to know? Why is it each rope?

Zoetrope.

I don't have a clue one day we will find out. We won't be asking you to show your last episode of each row by Michelle.

I'm trying.

Can black was invented black.

Barry. The drummer singer was but no wonder with us. I'm afraid of Kenya.

I'm a hard life the way to bring us down last episodes. What would you remember about the last night and the deuces?

It was sad, but it was fun. We all had well I member of Wes and everybody. We're wearing all the guys wear dresses because you know, for that were you there

No, but the west-world lot of dresses and we are all like just drinking like crazy and doing stable of to do the whip it. You know what? The b r o. Okay. Never done them drank alcohol did with it. I don't drink but pass me the whip. It did you eat ass Drunk on Power?

so, the last night of the Deuces, everybody's wearing dresses,

Got hammered and have a good time, I mean, end of an era and you knew that at the time about, okay? So you get evicted from backstage and where do you end up? This is this door at this point and I'm still a Cubby Bear and I move in with us because she doesn't ever go anywhere, but she worked at coming here with me and I got Wesson, I had gotten was a job West and her job at Cubby, Bear. That was hers first bartending job. Yeah, I know, when does the double door start up?

Well at least Cubby Bear. Go to jail.

Okay, so you're a gem for a while after Cubby Bear couple years. Yeah. So yeah, I don't then I

went to what did I do then? I don't know. I had a Avalon in there somewhere.

Wrigleyville Toyota Avalon, let's make this easier for us, as what club in Chicago? Did you not work at? Okay. So Metro, you know, never, so when does Dumbledore start,

P90 for you, go there looking for a job working in the office, just like in helping book stuff and you know cuz there's really nobody there at that time. It was just Jason Oldham who was the bar manager? And I think Tom pop work, they're doing sound and stuff, but he also has work booking some of the band's I started doing it and then I ended up being like, you know, I ran the whole place. I just assumed from from knowing you there. I assume that that's the way you were everywhere, you worked, but that wasn't the case. So I figured I'd manage the bark of a bear.

I was manager at Avalon it Wrigleyville tap. That was like the Wrigleyville. Tap was famous for the rest of your last bartending job because I was at the point where I hated bartending did not want to do it for another second and stuff when you go to Wrigleyville tap cuz they didn't care. If you are an asshole, you could see they say okay, in the draft, you know, that I'm in a lot of fun people there though, but yeah, at least hang out there all the time. And probably, the thing that I get asked the most about Dumbledore was, was that that Rolling Stones show and you were the reason I was at. No, here's the thing. Blake calls me that the morning that that's it gets announced. It had been up all night and I was living with Gabe and there's all these messages on my phone.

Scott call me man is like really sounds like a double door talk to you guys. Try to get us in. I was like I don't have nobody to pick up the phone over at Dumbledore. So

Manager calls me back. He's like, yeah, I know there's nothing we can do and I'm like, alright Blake. What if we just go over there and stand around and look pathetic? Maybe they'll let us in these. Like, I'm not doing that. So, I grabbed Paul Massaro, and Paul style comes with me, that's what it was until we're standing around all pathetic and I see Billy walk in and I see Liz Phair walk in and look at Paul and like what's go across the street to border line and let's get a shot and we'll come back. And so we go over there, come back and I can hear somebody yelling my name and it's you yelling my name and then everybody in line goes. Well, I'm Scott, I'm Scott. You like shut the fuk up.

And so it works. You heard that we were out there, you know, I always love you, sneak you in. So strict about that show, like insane, we weren't allowed to tell anybody was happening, we weren't allowed to blah, blah blah, and all I had to do is stand around and hand out passes. The VIP passes through the door which was like, Liz, Phair and we walked back and you put me right behind Rodger Ebert.

Did I really Rockin Rodger and Chaz?

Yeah, everyone always asks you out then like it was fine, whatever.

It was a big deal. It was a big deal for the venue but I didn't really give a crap. I mean, you know what I mean? It's like apple or what was your favorite show?

Richard Ashcroft. I love him and I love Oasis. I just bought for the first time in the millions. Actually pay for tickets. I'm like \$303 for tickets now. It's canceled right now. It's canceled today.

They only go on stage together. That's it. So Halloween, that was, you were there at the Inception of the Halloween show you, and me, and Blake at Liars. Club has said, let's all dress up and do this all the time.

So I would say I think it was my idea but I don't know, it probably wasn't but it was a great idea. Was it just got crazy like a year, just got bigger and bigger and bigger. Yeah, which pissed me off. Come on, man. Come up with your own ideas as good as ours. But maybe they wouldn't have done that. What?

You were like every year you call me go. All right, Scott here's who's playing and hears, he's not playing. And this person this person wants to be this band but I'm going to make them be meatloaf or they can't play. Did I really try to forget those things? But yeah I'm sure I was very when you get except for one year

What when we did Oasis? Yeah, he did that.

Let me guess.

The doors.

You'll never guess.

Tom Petty, ruins, all the

Great hair bands. Time are metal. And I didn't like them anyway, Metro. And I'm like Ian.

Lori. Did you ever get to book enough's enough? This is going to be interesting because you might have a shot here, my friend, this long, I get to ask you a question. I've been asking everybody for 196 episodes. I think I most

with the question we asked all the gifts. When I come on, you can pick between two bands. You can only have one of them on a deserted island. Can only have one of these two. Would you pick The Replacements or Iron Maiden?

Iron Maiden. Now, the question tonight made me feel like he was asking you who did you want to hang out on the island with The Replacements are Iron Maiden like you can have one of these bands. You can only listen to their music. That's that's the question why I've been losses? And now he's got a question every week and I usually wear what might be life person that ever

said that almost 400 and some episode side company. I knew I had a chance when you said that angel was one of the best shows up and do some of them down. So we do this thing around here is called what's the best and

Since you moved to Chicago in 1981, let's do what's the best 1981?

You could have told us you moved here for a different reason. You went here to go, to kindergarten. You could have said that, what how we do this, as we each have three choices of the best things from 1981. It could either be a movie app and a record the song, something that happened, you know, big world event a concert. So we'll each go one at a time. You'll go first day, go second, I go. Third then goes last then you go first.

Motley Crue Too Fast for Love on leather records.

Yeah, that's a record. I'm going to me so that's 81 and then Shout at the Devil has, 83 just listen to it Again, Sam.

It's so great. It's not great, but it's great. You know. What do you think you like that first? Motley Crue record? Got enough guts in there for you.

It holding up it holds up for metal. If it didn't.

Great. But it's it's a it's a very good sounding record for the time. A lot of the other hair metal bands of the era,

Yeah.

I mean, fans can still play Too Fast for Love and it it's it works, you know? It's still a great song.

Live Wire by wire and I loved it.

Yeah, you're making fun of me now, okay?

Pick 1981, Gabe. What do you got? I know what game?

There's no way in hell, I can go without kicking this first.

Iron Maiden killers.

Used to be one of my favorite Lake mountains but I can go past one Killers. The second album sophomore effort from Iron Maiden first produced first record produced by Mark an amazing tip there then.

They never look record. Great, red record, great cover.

I knew you were going to pick it up and it is his right as I can be part of the video. Think that's it.

Show us. Show us your show us your tattoo.

Only because Lori is there and she's probably going to appreciate it more than most would give me your way in the question.

This is stripper music.

Look at him.

Look up man. This is sexy. Oh, look at that Jason. Did you get a bigger one is Eddie from the power saver with a change in the mummies. It was my first tattoo in a very nice tattoo but I'm getting one with the teams in the mummy. Somebody's got a birthday coming up then.

You don't like what? I'm not a fan. My turn number one after hours.

Wrong one. So I'm going to pick choices of things. I was actually into it. I was just going to say the same thing. Go ahead like so this isn't my favorite movie from 1981 anymore. But at the time,

Boy, man, was it ever? And if you wanted to know what I was watching in 1981, I was watching Raiders of the Lost Ark over over and over. I must have seen that 13 times that summer. So, so that's what I was watching. I cannot tell a lie. That was a good choice, very good choice. That was a great movie movie. Like I said, it's not my favorite movie from 1981 anymore, but at the time, it definitely was

Mocosnow your Movie Stop guys. So that's right now. I like possession. So

Then what are you got 1981? I'll follow your lead with a movie. And I'm looking, I wrote down, five movies, and I realize three of them. I wasn't into an 81. I didn't get in until later. So I'm picking from the two that I actually was into at the time. So I think maybe the biggest movie for me and 81 notwithstanding rays of the Lost Ark, which course I was into David Cronenberg's. The first day of Cranbrook movie ever saw scanners.

That movie a nurse sent me in a whole other direction, feel the best, the best head explosion of all time.

Like a would you agree never to ask for that matter. You never saw the Raiders of the Lost. Ark has a head blowing up to

I didn't think of that, that's a pretty good one, but they had to sort of like mask it so they could get a PG rating.

It's back to you Lori. This is a tough one. I got so many. I just don't know which one I'm going to go with this earlier. You texted me, you're like

nothing from 1981. What did you say? I don't know what I said. At least you said not much to choose from. I have to go with

Motorhead No Sleep Til Hammersmith.

Good choice.

That's a lie record. Guess it is.

Gave disagrees.

it should surprise you but for some reason it doesn't

How to play Motorhead yesterday? Actually meant a thing? Do you like this record? Just live? It have a lot. Lala Allah hoo live at Hammersmith. It's easy it up. Listen to it. You'll love it. I'll put it on my list live and I can look it up.

A maiden from the live after death of my brain. Knows that. Okay, I believe it's your turn or do you lose a turn?

No, I don't need to turn this movie. I did not know what directed by this person, but I just looked it up just now, but the first time I got to see Pee, Wee Herman in Cheech & Chong's, Nice Dreams man, was it? I didn't know that they didn't win. Either win a nice. Dreams is the fire that year. Nominated third Cheech and Chong movie, right? It was their fourth.

Does smoking was third. Things are tough all over its third right now. No, no no, no, no. Sounds like a sex movie is second.

Drive me to pick. I want to go to a TV show, Believe it or not, I'm taking the Greatest American Hero. That show was awesome.

That's the awful. Awesome.

Billy cat. Yeah. Good ol William cat. I mean come on.

That's perfect. Then I have to disagree. Do you want me to weigh in on Greatest American Hero? Sure. I have a bad taste in my mouth about William Katt because I just saw him in a really terrible movie from

carrying a couple years earlier. No, no, no, no, no, let me call First Love.

But that he was in Cary so I think it gets a pass out. He was also in the Greatest American Hero. He gets a pass for for life. Isn't he? Also the Robert Redford role in Butch and Sundance the younger years or whatever? That no. Believe it or not. I haven't seen that.

I'm pretty sure I'm right about that.

Alright then, what if you got?

Okay, I'm going to go with an album and again I'm trying to figure out which I got like six albums on here. But again, I think only two of them cuz I really into in 81.

I'm going to go with the Kinks, give the people what they want.

Everything's I knew you, I knew you would be into that record. Yeah, it was a big album for me. Yeah, I can see that it's your choice, right? Make it a good one.

I can't decide to I get to that. I really want it, but I got to go with

Billy Squier choice is the green record. It's sitting right over there. I play it all the time.

I don't think it's nice. It's a banger. I mean, there are like

For all time, great songs on it, on that record.

What's his middle name? They are.

In the dark stroke. My kind of lover. And what do you think the 4th is?

It.

I don't know, lonely is the Night by Billy Squier Williams. I wasn't listening to you.

At the worst, great choice, that was, that was right on the edge of my Lister, Gabe, impress us with your drugs. But go with the music down to the movies, regular TV, or go back to the music, you were all worried that I was going to tell you what you thought I was going to take Dynasty or something. Do the 1 hour, 30 minutes shows with Jack Tripper, easy Three's Company, Three's Company, start 81. It just has to be on in any way. What season was in 81?

Cuz if it's not Suzanne Somers, I reject your choice. Pretty sure she was gone. When the five from 77 to 84. Count. The ones, the ones where she sort of in it, that doesn't count either because she's in another town because he's calling her cuz they'll good. Now that sucks. What's your name?

And his worth is in her name.

Jenilee Harrison.

Okay.

Eminem by that time. Fairly was there. How can you possibly defend? This was almost as good as a no, no, there's nothing wrong with Mr. Furley. Nothing. There's a few things wrong and we all know that and I'm going with the record. I'm by the way, I'm with Gabe on. This is really hard to knock. I mean,

He's always not hard. Did not done. That should be it really should be. It's not. Okay, go ahead. Go ahead.

I got to be honest.

And then you know what, I'm not even ashamed. This is a great green record, say every sign this record an amazing high and dry by Def Leppard. My list to Great record.

I am, if I was even more honest, I would have picked High infidelity

That is that is, that is a great record to. And one of these days, I will do the full album cover of that record, but high and dry. I still listen to high and dry and it's still

Greeks me up.

Saturday night.

I'm high.

Iron drive at the best AC DC album from 1982 rock. That was also on my list was able to strong-arm Def Leppard and doing what he wanted a bit more than he was able to strong-arm AC DC. The drums on For Those About to Rock, who doesn't get much better than that?

AC DC was everywhere.

Ben.

I lied. I'll pick a TV show that apparently debuted in 81 and I know I saw it from the get-go. Actually, playing the game Hill Street Blues.

Good show was great to have you here.

Ben gets her changing again. Did anybody watch Hill Street Blues here?

You guys didn't watch those people. He's what it was that the one where all the cops sing

Hill. Street Blues is where they're all cops on a corner in Baltimore, right? And they're there, they set up a wire for the drug dealers, right?

Stopwatch.

Listen to that think that's a good theme song about listen to that. It sounds really good.

See where he's going to put the theme song on.

No, he's not supposed to do here it. So we're talking about right now,

Corbin Corbin.

This hasn't been my episode and Iron Maiden win.

Wow.

If you knew anything about me, you would have known. You were going to lose that one.

Was Scott knows you. He didn't know. I had a good idea, so she could have gone with replacements.

Are you free now Ben's getting kicked when he's down. I don't own any Replacements album. I'm surprised you didn't pick their record. Then for 1981 I didn't get into them to let it be and then it was probably 1985 by time. I was into, sorry, I was playing the game. You're playing the game. The game has 81 I was 9 years old.

Oh my God, you're old pics. You should have gone into the well and figured out what you were doing. You didn't seem embarrassed about singing. What is that song? You got up in front of the class and sang Pac-Man, Fever.

To the pic that in life that she never forgets to do is that you claim to fame the Boombox? Go to the gates of St. Peter and Gabe. What was the most important moment of your life? Well sir, we did the denizens of Earth with my rendition of Pac-Man Fever and I love rock and roll. So

What is 2? / Pac-Man Fever. And I love rock and roll. This match, the beats and everything was perfect.

All right, Lori, it was great having you. Thanks for doing this. Thank you.

Yeah, you're not you're not as bored as he thought you're going to be at Medusa's. Was there an actual door on the backstage that we just go back to your room?

But no answer.

Red Hot Chili, Peppers and Ministry. I let them do that, but yeah.

Going in, boys. Don't worry. It's just Lori, Francis is apartment.

Yeah.

Wow gave I think your next tattoo should be assertive like it didn't like Latin King letters pink pussy Palace her baby her baby roaches. Whatever name is that's not that's not your idea you can't do that. You didn't just make up. I told you if I was ever going to get a tattoo, that would be the tattoo been in your mind cuz I put it in your mind.

Bulshit are we going to get it?

Where is where in your body would you get tattoo tattooed on you on your ass?
