INTRODUCTION/LATAR BELAKANG

The introduction contains 4-6 paragraphs explaining the analysis of the situation in the area or location of the community service provider. Problems that exist in the area or

location of community service providers are explained by underlining how important it is that the problem must be resolved. The next paragraph contains the justification of the activities to be carried out in the implementation of community service. The background section closes with a

statement of the purpose of implementing community service
Citation using using Vancouver style (1).

(Paragraf 2) The introduction contains 4-6 paragraphs explaining the analysis of the situation in the area or location of the community service provider. Problems that exist in the area or location of community service providers are explained by underlining how important it is that the problem must be resolved. The next paragraph contains the justification of the activities to be carried out in the implementation of community service. The background section closes with a statement of the purpose of implementing community service. The background section closes with a statement of the purpose of implementing community service. Citation using using Vancouver style (2).

(Paragraf 3) The introduction contains 4-6 paragraphs explaining the analysis of the situation in the area or location of the community service provider. Citation using using Vancouver style (5)

METHODHOLOGY/METODOLOGI

This section describes the community service methodology that was carried out. Explain the setting, participants, methods of implementing community service, and the media used.

RESULT/HASIL

The results are presented sequentially starting from the main results to the supporting results. Presentation can be done with diagrams, tables, pictures, and graphs followed by a narration of the results obtained from the implementation of community service.

DISCUSSION/PEMBAHASAN

Explain the importance of your community service results. Consider the most important parts of your paper. Don't beat around the bush or be repetitive, be brief and make your point clearly. Follow a logical school of thought; In general, interpret and discuss the importance of your outreach results in the same order as you described in your results section. If necessary, use subtitles to help organize your discussion or to categorize your interpretations into themes. The contents of the discussion section include: explanation of results, references to previous research or community services, deductions, and hypotheses (6,7)

CONCLUSION/KESIMPULAN

Conclusions should be clearly explained in relation to the situation analysis and the results of the community service. Suggestions can be added containing recommendations for the community service carried out or input that can be used directly by related parties.
