

CMHS Science Teacher Spotlight

Welcome Hannah Morgan to CPS!

Please tell us about your family and/or people you enjoy spending time with outside of school.

My husband and I moved to Charlevoix at the end of last summer with our rescue dog, Wiggins. We just welcomed our first child and have enjoyed becoming parents. Our families appreciate having an excuse to come up and visit more often from down state, Arizona, and Kansas.

What college(s) did you attend while preparing to become a teacher?

I attended the University of Colorado while pursuing a Bachelor's of Arts degree in Biology and a teaching certificate. I will be graduating in August from Colorado State University with a Master's degree in Natural Science Education.

How are you spending your summer?

Summer has been busy! We welcomed our son, Milo, at the end of May and I just submitted my master's capstone project at the end of July. Between the sleepless nights and seemingly endless writing, we spent a lot of time with family who came up to visit and attended our week-long, yearly family reunion in Central Lake.

Please share your favorite childhood school memory.

While attending high school in Hawaii, I was part of the varsity water polo team. I appreciated the experience of playing a unique sport that many other high schools don't have the ability to offer.

What are two things you are most excited about as you begin to work for Charlevoix Public Schools?

I am excited to feel like a part of the Charlevoix community! I always enjoy seeing students outside of the classroom. Working at Charlevoix Middle/High School will allow me to attend my students' sporting events and activities and see students grow for years to come!

What do you like to do in your free time?

In my free time, I enjoy walking my dog in the fields behind my house. I also find joy in singing along to a Disney playlist. Now that I will have more time after finishing my degree, I plan to dedicate some time to learning how to use my sewing machine.
