

Michael Beckwith - Life Visioning Mastery

Do you feel trapped in a small life?

This Quest is for people who're dissatisfied with modern goal-Setting goals can lead to many people waking up in their 40s and wondering what the hell happened to their lives. This is because goals are often not based on our soul but on what society expects us to do.

Forget society.

Listen to your heart.

What if the Path to Your Most Fulfilling Life Was The One You Choose? Life Does The Universe Have Written Its Own Book?

You just had to accept it. As per Dr. Michael Beckwith There are not extra people on this earth. Each of us were born for a reason. We are uniquely suited to fulfill that purpose.

The best part is — The Universe is always on your side and is constantly working for you to realize your unique purpose.

Many people are still dissatisfied about their lives. If it's heading anywhere at all.

Michael Bernard Beckwith

Why is it that the more you gain, the better.

What Does it Feel Like to Be Fulfilled?

Like most people in the world today, you work, struggle and strive for everything you've been told would make for "a happy life."

Perhaps you have been a part of personal growth or even learned to use traditional tools.
'visualization' 'manifesting'.

All of this with one goal: to realize your dream.

You might have achieved your goals.

And by all accounts, you should be... fulfilled.

But you feel that nagging void.

You were made for more than you can imagine.

It would be amazing if there was a way for you to truly hear what your soul wants.

It is possible to finally find your purpose in life if all of the cultural norms and expectations imposed by society, parents, and society can be removed.

The 'Secret Ingredient' To Live a Deeply Fulfilled Life, Find Your Purposeful Life

Imagine what it would be like to not have to struggle in order to achieve your goals.
Instead, imagine your goals being the ones that really sing to you. It was as easy as accepting it.

Photo of a rose-garden

It's as simple as that:

Is it necessary for a rose seed to be able to grow into a rose?

Is it possible to give it the environment it needs to flourish and grow?

You are in fact, no different.

You are the individual manifestation of that which is always and everywhere. This allows the Universe to understand itself through you.

You will blossom when you have the right environment.

The Life Visioning Mastery Quest by Dr. Michael Beckwith This guide is meant to assist you in your spiritual awakening. Each stage will lead you to profound awakenings and help you align with your true essence.

At the end the Quest will make your life purpose crystal clear-You can start to manifest your true potential by focusing on the right things.

Dr. Michael Beckwith It is one of my most important spiritual teachers, as well as in the lives and work of all the Mindvalley members.

His ideas have helped me personally, and our company, understand that true goals don't come from listening to the status quo.

These come from listening deeply into our souls.

You can also see other ideas here Michael The Four Stages of Consciousness and the Law of Resonance have played an important role in my understanding of reality's nature. Concepts such as the Law of Resonance and personal growth have fundamentally changed my view of the art of manifesting.

These are just a few of the many reasons we use Michael This has been one of the greatest teachers in my life and is featured heavily in my New York Times bestseller The Code of the Extraordinary Mind.

And I'm so honored to bring him to Mindvalley so I can better help spread this man's brilliant wisdom to the world.
