

SEVENTEEN Logic Puzzle SOLUTION

[Quiz Link](#) | [KProfiles Link](#)

To begin, the clues for ADORE U and VERY NICE tell us that HOSHI has to be in D1.

HOSHI tells us that WOOZI and S.COUPS are not adjacent. If S.COUPS was in B1 and WOOZI was in E1, that would violate VERY NICE (no 96 liners adjacent to each other). Trying this in other combinations reveals that the only one not defying any rules is S.COUPS in E1 and WOOZI in B1. Keep S.COUPS and WOOZI's clues in mind.

Because Row 1 consists of *four* unit leaders, this means that we're missing BSS. DK is the leader of BSS, and he takes C1.

DK tells us that VERNON is in D3, as well as revealing that foreign members (members that are *not* from Korea) that were born in the same country are not adjacent to each other. This means that JOSHUA has to be in D5. JUN cannot be in D2, as he would be adjacent to HOSHI (check VERY NICE), so JUN takes D4 and THE8 takes D2.

JUN's clue reveals that JEONGHAN is adjacent to his unit in E4, meaning that VOCAL TEAM is in E4. Since D4 and E5 are already taken, JEONGHAN has to be in E3. Since S.COUPS already mentioned that JEONGHAN is adjacent to the two youngest members, that means that DINO is in E2.

JOSHUA tells us that BSS are all adjacent to each other and their unit has to be connected in this chain. D2 underneath HOSHI is taken, so SEUNGKWAN must be in C2. The clue from VOCAL TEAM says that the remaining Hip Hop Team members are in Row 2, which means that BSS is in C3. Again, because of VERY NICE, WONWOO is in A2 and MINGYU is in B2.

WOOZI's hint says that HOSHI's units are adjacent, so they can't be in B5 as they would not be next to each other. Since the largest unit in terms of members is in the middle, PERFORMANCE TEAM is in B3 and SVT LEADERS is in A3.

By process of elimination, HIP HOP TEAM is in B5.
