

OUTREACH

Hi Warren

Your Website does a great job of adding legitimacy to your services.

I came across your website and saw many things are missing, like **Testimonials, newsletters Social media Etc...**

I'm confident this will build more trust and confidence for your services in your social network and online you can make **ZAR2 million/month**.

Your Website looks like you haven't upgraded for a while and can give you a negative aspect for your business online if you don't change it now. **Don't let that happen.**

I'd like to schedule a call this week. What day and time are you available?
