## The Iowa Statewide Assessment of Student Progress Student Honor Code

Results of student assessments are used throughout the school and community to make critical decisions about the performance and needs of the students in Williamsburg Community Schools. They are an important tool to measure and monitor student learning and provide feedback to students, educators, parents, and the community. To ensure that these assessments are fair for all students and that the results are reliable to inform decisions about students and schools, it is important for students to follow certain guidelines while testing.

- Help create a testing environment that is safe and allows all students to do their best.
- Follow all directions for your testing sessions.
- Ensure all personal electronics devices such as cell phone and internet capable watches before testing are put away and turned off throughout the testing period.
- Have a positive attitude about your performance on these assessments.
- Prohibited behaviors include but are not limited to:
  - Providing assistance to or accepting assistance from other students, which includes copying answers, using prearranged signals to provide answers, sharing used scratch paper, etc.
  - Discussing test items or responses with students who have not yet tested.
  - Sharing test tickets or retaining tickets or scratch paper after testing.

Your commitment to following this honor code will help ensure that we have a safe and purposeful testing environment. If the information gained through the Statewide Assessment is reliable, then it will help inform educators and the community about our successes and the areas where we can improve. Sign below.
