

An abstract geometric pattern composed of numerous low-poly triangles. The triangles are arranged in a radial, star-like fashion, creating a sense of depth and movement. The color palette is warm and vibrant, featuring shades of orange, yellow, and purple. The triangles vary in size and orientation, creating a complex, faceted appearance. The overall effect is a dynamic and visually striking composition.

The background is a light gray with faint, wavy horizontal lines. It is decorated with various scientific and medical icons: a purple microscope, a green plant in a purple pot, a DNA double helix, a gold seal with a star and laurel wreath, a blue microscope, a pink and green cell, a red horseshoe magnet with yellow lightning bolts, a DNA double helix, a red and green cell, and a blue and red cell. There are also several gray molecular structures and a blue and red cell. The icons are scattered across the page, with some appearing in the top right and others in the bottom right.
