Here's a great way to begin 2025!

This family exercise had a very surprising field test. While the adults liked the sharing and singing of each person's favorite worship song, the children were super enthusiastic about everyone singing the worship song they picked. Even better when cousins became familiar with each other's songs then were excitedly anticipating their upcoming turn.

This exercise created an unusual bonding among three families of which no one could have anticipated. Try this exercise and invite others to join with you such as cousins and grandparents. Perhaps you could consider this an exercise for your Small Group. Enjoy entering the worship world of those around you and honoring them by joining them in the way they connect to Jesus.

Family Worship Plan

5 minutes of your travel time– Weekdays

A. As you commute to school or work play the song selected by the family member to experience the music that draws them to God. If you are taking kids to school, please ensure you lead the experience with a positive mindset.
B. Personal time. After the song has finished, (or kids exit the vehicle) voice a brief prayer asking the Lord to guide you through whatever lies in front of you for the day.
C. After work. As soon as you close the door on your vehicle, pause for 1 minute to ask the Lord to guide you through whatever lives in front of you as you move toward home and family.

2 minutes – Once during the weekend

A. When the family is gathered say a 1–2-minute prayer for the person who selected this week's song.
