Student(s)	Glow	Grow
Zach 19.8	Your constructions are clear and nicely colored. It is easy to follow your construction steps.	Try to proofread your paper a bit more.
Megan 19.8	Your creative construction came out great!	Try to go into a bit more detail about why constructions are important
Joseph K 19.8	The presentation of your work is fantastic!	Try to connect constructions to the real world a bit more in your intro.
Mariam 19.8	The steps in your write up are clear and easy to follow.	Try making the constructions a bit bigger so that the construction marks are more spaced out.
Anmol 19.8	Your creative construction looks really cool!	I like that you used a slideshow for your write up, but try to use some more of the features of the slideshow to really make good use of the format.
Ean 19.8	You're a great writer! Excellent use of analogies and similes.	But keep an eye out for typos! "Gonna" is a bit too informal for an essay. Also, your vs. you're.
Kelly 20	You worked really hard on all those constructions!	You did too much work! Exceed expectations, but don't go crazy doing it!
Emily 19.8	I really like your "eye" construction! It came out great!	But some of your construction marks are very hard to see, particularly the eye one.
Katherine 20	You went above and beyond the requirements!	It would have been better to include your extra constructions in the write up too.
Ava 20
