

5 Steps to Producing a Podcast Using Tools You Already Have

- Use earbud mic from iPhone

Step By Step

Mobile Recording Studio: Garageband for iPad

Ways To Host

ARhive.org - Export as MP3

KID3

iD3 Editor - Mac App

Tag: Album Artist

Cover Art is Important

Soundcloud.com

NEED to HAVE a Topic - rich enough for content, but not too deep.

https://www.youtube.com/watch?v=_pxLNIF9jRA

Tasks:

1- Listen to 3 podcasts using the **Podcast app** on 3 different environmental topics that interest you. (Ex: Water pollution, mountaintop removal, global warming, endangered species, food webs, greenhouse gases, renewable energy)

OPTIONS For Podcasts

1. **Living on Earth:** The popular weekly environmental news magazine from NPR. [Site](#) and [podcast feed](#)
2. **Environment Report:** Weekly radio show from the Great Lakes Radio Consortium. [Site](#) and [podcast feed](#)
3. **Earthwatch Radio:** Short (1-2 min.) environmental news and features produced by the Gaylord Nelson Inst. and the Univ. of WI's Sea Grant. 3-5 episodes weekly. [Site](#) and [podcast feed](#)
4. **The Watt:** Independent (amateur) podcast on energy. Covers markets, technology, industry, envl effects, and more. By Ben Kenney and other graduate students working on energy projects at Queen's Univ. (Canada). [Site](#) and podcast feeds ([full weekly show](#) about 30 min/episode)
5. **News from NOAA:** Short reports on NOAA science & research, including environmental topics. [Site](#) & [podcast feed](#)
6. **The Wildebeat:** News and features about environmentally responsible wilderness recreation. Independently produced by Steve Sergeant. [Site](#) and [podcast feed](#)
7. **Cleantech Talk (Solar Love):** Electric, hybrid, & alternative-fuel vehicle industry interviews. Zachary Shahan, Kyle Field, & Matthew Klippenstein (globally recognized) discuss latest electric vehicles & energy. [Site](#) & [podcast feed](#)
8. **Bird Notes:** Magazine show by the Royal Soc. for the Protection of Birds (UK). Features on birds and the environment. [Site](#) and [podcast feed](#)
9. **Off the Grid Radio:** Casual interviews and observations from the owner of a solar-powered ecology lodge in Algonquin Park (northern Ontario, Canada). Not strictly environmental. [Site](#) and [podcast feed](#)

While listening to the podcast fill in the chart below. Think about:

- What you liked about the podcast? (Think formatting- intro music, introduction, presentation, voiceover)
- What did you dislike about the podcast? (Think formatting)
- Your opinion the podcast
- Which of the 3 podcast topics interested you the most or are you most passionate about?
- How do you want to format your podcast?

	Like	Dislike	Opinion
Podcast 1			
Podcast 2			
Podcast 3			

Which topic are you choosing to create your own podcasts on:

2-Need to create 3 podcasts (3-5minutes long in length) using **Garage Band app**

Rules:

- Intro music (Have fun creating in app!)
- Introduction (:15 seconds)
- Podcast name: Ex: "Raider Strong"
- Exit music (Have fun creating in app!)
- At least 1 podcast needs to have a guest (ideas: you could come up with questions and get the opinions of people on your topic or research a credible person and have a person that voice is filling in for)

****Important when making your podcast you must make your narration UNLIMITED!!! Or else it will cut off!

Upload to Soundcloud: <https://soundcloud.com/user-624513637>

<http://ipaddiction.blogspot.com/search/label/Raider%20Strong%20Podcasts> (write up example)

3- Make an album cover for your podcast using the **Canva app**

Submit image to Canvas under assignment: **Podcast Album Cover**
