Research Depth Course Guide

*Research Depth courses are courses which introduce and expand on specific research methods. These courses provide students with experiences in doing research (e.g., collecting and analyzing data).

NOTE: This guide was last updated in Spring 2024. While this guide does provide many course options, it is not an exhaustive list of all research depth courses that can count towards degree requirements. Students may connect with their advisor to determine other acceptable research depth courses at the University to fulfill degree requirements.

Dept. Numb. Name
CI 8079 Arts Based Research in Education
CI 8085 Narrative Inquiry in Education
CI 8146 Critical Ethnography in Education
CI 8147 Critical Discourse Analysis
CI 8148 Conducting Qualitative Studies in Educational Contexts
CI 8149 Qualitative Research: Coding, Analysis, Interpretation, and Writing
CI 8153 Research Approaches to Classroom Discourse
CI 8155 Immigrant Families and U.S. Schools
CI 8165 Queer and Feminist Studies: Collective Memory Research Methods
CI 8371 Applied Social Network Analysis in Education
CI 8470: Scholarly Personal Narrative, Testimonio, Autoethnography
CI 8645 Indigenous Language Revitalization and Activist Research Methods
CI 8671 Sociolinguistic Research Methods in Education
