

Summary

Holiday special submission which introduces a new seasonal character to the Tavros station. The character - Holly - is visiting the station, but isn't a rusher. She is renting a room (hotel space?) on the station in order to visit her sister - Ivy - who is a rusher and isn't featured.

Encountering Holly will initially take place at random anywhere on the Merchant deck and takes place in two parts, the second part being either on the Merchant or Living decks. In the first encounter the PC will see Holly but won't have any interaction with her. In the second the PC will have the option to go to her aid and thereby initiate the rest of the encounter.

Holly is a vanilla human who's baseline gene modifications as a baby (capacity/lube perks) went awry and have left her with a need for big insertions. As a result she's a QA tester for Joy Co's biggest novelty items.

Merry Christmas!

Mechanics/Technicalities

The following variables are needed:

[pc.hasMetHolly]	Integer starting at 0 and incremented with each meeting - noted in {}'s inline.
[pc.hasHadSexWithHolly]	Boolean starting at 'false' and updated after sex with Holly the first time.
[pc.hasTalkedHollyHer]	Boolean starting at 'false' and updated when talking with Holly.
[pc.hasTalkedHollyToys]	Boolean starting at 'false' and updated when talking with Holly.

I wasn't able to find the correct name for the Kind/Mischievous/Hard scaling variable, as a placeholder this is referred to throughout as [pc.alignment]. Nor was I able to work out how hardlight panties are modelled; I made some best guesses in a scene involving hardlight warers.

To minimise intrusion for players the scenes where the player can meet Holly are intended to appear inline with room descriptions and allow a player speed-running to pass them by without a [Next] press before continuing to move.

//

Initial scene

// First encounter: Tavros Station Merchant Deck
// Available in December randomly between the hours of 09:00 and 18:00
// Available only if [pc.hasMetHolly] is 0
// The included text should appear inline with the rest of the room description.
// This appears in isolation. No further scenes are linked from this one.

A pretty woman carrying an armful of brightly coloured decorations bustles down the corridor past you. She's wearing a red dress with white fur trim and candy cane striped stockings that make you think of Christmas back on Earth. Unlike so many of the citizens you meet on the station she seems entirely human, her long dark hair framing her round face. She gives you a shy smile as she passes you by, almost as if she's a little embarrassed by her bundle of holiday items.

[pc.hasMetHolly] = 1 // Prevent this scene firing again.

Second encounter

// Second encounter: Tavros Station Merchant/Living Deck
// Available in December randomly between the hours of 09:00 and 18:00
// Available only if [pc.hasMetHolly] is 1
// The included text should appear inline with the rest of the room description.
// This begins a chain of scenes.

You see the human girl with the candy cane stockings in the corridor, her bundle of decorations seems to have grown and she's struggling to keep hold of everything. Indeed, as you watch a large bauble rolls off the top of the pile and bounces across the deck with a surprisingly weighty thunk.

The lost item causes a cascade effect as she tries to catch the fallen object and then counteract the tilt, causing more baubles to slip out of her grip. Each one rolls in a different direction spreading her decorations around the hall. One rolls towards you and stops at your feet.

// Available only if [pc.hasMetHolly] is 2 or greater
// The included text should appear inline with the rest of the room description.
// This begins a chain of scenes.

You see Holly ahead of you in the corridor. She's carrying shopping bags and looking a little down.

[pc.hasMetHolly] = 3 // Used to customise some later content to prevent her introducing herself twice.

[Approach]	See if you can bring a little festive cheer	// Reinitiate the encounter with Holly (goto Holly's place)

Ignore

// Ignoring Holly: Follows on from Second Encounter
// The included text should appear inline with the rest of the room description.
// This breaks off the encounter chain. No further scenes are linked from this one.

You smile to yourself as you pass the woman by. She's almost completely unaware of you as she struggles to gather up her lost items.

[pc.hasMetHolly] = -1 // Remove Holly from the game.

Pick up

// Helping Holly out: Follows on from Second Encounter
// The included text is stand alone (shouldn't include room description).

You stoop to pick up the odd bauble. At first glance you had thought the object a decoration for the holiday season, but on closer inspection you see it is completely spherical and four inches across, as you turn it over in your hand trying to work out how you'd hang it you notice branding seamlessly moulded into the surface of the sphere.

<i>Joy Co. Remote Pleasure Balls - Hands free fun!</i>

The pretty woman notices you and hurries over.

"Oh, thank you! I'll take that." She juggles the items still in her arms to free a hand and tries to take the oversized love egg from your hand. You offer her a smile, but she refuses to meet your eyes.

"Th-thank you." She blushes furiously and another small avalanche of toys causes her to drop a pointed doggy dick shaped vibe to the floor. It hits the ground and begins to writhe rolling in tight circles around the large knotted base.

"Looks like you're going to be decking the halls all the way home." You give her the old Steele smile.

"I-I guess I could do with a little help." She says with a shy smile. "Would you mind grabbing that for me?" With a nod you set about collecting up her scattered sex toys. You're impressed not just by the number but their size too, this is clearly a girl who isn't afraid of a little holiday stuffing.

"I'm [pc.name], by the way." You say, scooping up the still wriggling puppy pecker.

"Holly." She replies.

Holly's place

// Going to Holly's room: Follows on from Pick Up or Third Encounter
// This continues the encounter chain.

The two of you walk in companionable silence to the door of her room. {[pc.hasMetHolly] == 2 :
// For first time encountering Holly and going to her room.
She opens it and dashes inside to shove her armful of special interest items onto an L-shaped couch that separates the lounge area from the kitchen and bed spaces. She quickly comes back to collect the numerous toys you're clutching to your own [pc.chest].

The small space looks like a hotel room. Nothing personal about it except for the Christmas decorations covering just about every surface that might take them. It takes you a second to realise that her 'decorations' are actually all sex toys.

"Thank you for your help." She manages to say, pulling the door closed behind her to block your view of her room. Her face is burning the bright red of a dying star.

{[pc.alignment] == Kind: "No problem." You say with another cheerful smile.}
{[pc.alignment] == Mischievous: "I like your decorations." You say with a mischievous wink.}
{[pc.alignment] == Hard: "Quiet the collection you have." You say with a nod to the door. }

As you turn to leave Holly lets out a little squeak. "D-did you want to come in for a drink?" She asks. "To thank you for the help."

/

// For later encounter with Holly and going to her room.
When she opens the door you see that the little hotel like room is still festively decorated with assorted sex toys. You recognise one or two from your last visit.

"Drink?" She asks with a blush and leads the way inside.
}

[Drinks] Agree to a little holiday tippie.
[Leave] You've got other things to be getting on with.

You go inside her little apartment and she busies herself getting drinks. When she returns you've settled yourself onto the sofa between the piles of vibrator orb 'decorations'. You feel a little sorry for the woman, if her blush continues to deepen she's going to actually catch fire.

 "Thanks for stopping by again [pc.short], see you around?"

 "Thanks for the help with my things, I'm not sure I would have managed to get them all home if you hadn't." She blushes again at the thought of you carrying her toys home for her, then stammers on. "M-maybe I'll see you around the station sometime?"

You give her {[pc.alignment] == Hard : a non-committal shrug / another nod} and make your excuses. Heading back out into the station.

You smile at Holly as she passes you a warm spiced drink. It has more than a little alcohol by the smell of it.

"How about we talk for a bit?" You ask.

{[pc.hasTalkedHollyHer] == false :

You ask her to tell you about herself and she stammers something about not knowing what you want to know.

"How about starting with what you're doing on the station?"

"Oh, well that's easy." She says with a grin. "I'm visiting my sister. She's got it into her head that she can be a rusher, and she came out to the station a few days ago. We're pretty close. I couldn't imagine her spending Christmas off somewhere where they didn't even know what Christmas was. So I thought we could spend the holidays together, but she got some hot tip about a jungle planet or whatever and raced off to check it out."

/

You ask her what she's been up to. She smiles a shy smile. "Oh, you know... The usual. This is a working holiday for me so I've had a few new items to test, but nothing revolutionary. Ivy's still off gallivanting, so no change there."

}

Holly looks a little sad at the thought, but she continues in her usual jolly tone. "We've got plans to have Christmas dinner together, so she should be back for that at least. Even if it does come a little late."

{[pc.hasTalkedHollyHer] == false :

Holly asks about you and you give her the short-short version of your induction to the planet rush, your Dad and the race to find the probes ahead of your cousin.

"Sounds exciting!" She squeaks. "I'm a real homebody, but I just couldn't get through the holidays without my sister Ivy."

You ask about her sister.

"Oh, yeah, she's great. She's way more adventurous than me." She gushes. "You'd never catch me out here searching for fortune and glory on these wild planets. I've heard stories!"

"Stories, like what?" You ask.

"Oh, you know." She waves vaguely. "Pirates, parasites, purple penis eaters... Horror stories!"

"Penis eaters?" You inquire.

"Yeah... Ivy told me about that one... I'm not sure if I should believe her. She didn't tell me if they're penises that eat you or things that eat penises. She was a bit vague, which makes me wonder."

You ask her about what she does if she's not a rusher and she blushes.

"Well, I've got a pretty cushy job, and I've got a bit of money set aside too... I don't really need to work, but it's fun."

You ask her to tell you about her 'decorations' causing her to blush furiously.

{pc.hasTalkedHollyToys :

"It's kind of a long story." She says, clearly trying to avoid the subject, but you won't let it go that easy. "Ok, well my family weren't too wealthy. Not impoverished or anything, just not really rich enough for the best of things. When I was conceived they went to a clinic to get my gene tweaks done. It wasn't the best place and they used some older gene therapies."

You nod along listening as she meanders - hopefully - towards answering your question. "So the older therapies had some issues still. There was a 1 in 500,000 chance of complications and I was the lucky girl. There was an unexpected interaction with the mods that made me a little different."

/

"[pc.short], I've already told you about this stuff." She says with a shy smile. You give her a cajoling look and she rolls her eyes at you.

"Before I was born my parents took me to a clinic and tweaked my genome a little. There was a low probability interaction with the mods they picked and I got something a little more than anyone bargained for."

}

She fidgets uncomfortably, causing the hem of her short dress to rise interestingly to expose a line of pale thigh over her stripy socks. You watch her, waiting for her to elaborate.

Holly sighs and pulls her dress back into place again. "I got two mods for my vagina; capacity and lube. I guess my folks were just trying to give me the best chances of having fun when I got older, but the mods interacted strangely and they sort of amplified one another."

You raise an eyebrow with interest.

"The clinic gave my folks a pretty good pay out to make up for the complications, which made things much easier at home - and meant that Ivy got the best mods when she came along - and Xenogen paid us even more to study the unexpected gene results in me. They used it to push forward their research project on EasyFit by something like a decade." She shrugs. "When I grew up I found that I was a real sucker for bigger things, so I took up a job with Joy Co. testing some of their... girthier items."

She waves at the piles of insertables. "These are part of a holiday range, the idea is to use one or two, but they wanted me to use my unusual talents to stress test them."

Pussy Stuffing

// Using her toys to stuff her pussy to the limit, followed by her showing appreciation with her mouth.

Holly gets up and heads towards the big bed, her hips sway under the short skirt and you catch glimpses of her pale legs between the hem and the top of her stockings. She stops at the foot of the bed and slips her panties down her stocking clad legs. As she bends you get a good view of the curve of her ass as it peeks out under her dress. {[pc.hasHadSexWithHolly] : There is a wet pop as a six inch wide pear-shaped plug fixed to the crotch of her panties emerges from under the dress. A thick string of femlube momentarily connects the tip of the toy to her drenched pussy.} She steps carefully out of the bright red fabric and even from the couch you can tell the crotch is soaked with her excitement. Holly lowers herself to her knees bending over the bed. She lifts the hem of her little red dress to expose herself to you. Her drooling pussy opens into a slight gape as she pushes her ass out. She looks over her shoulder at you with a mischievous smile.

"Are you ready to stuff this bird?"

The sticky gape of her pussy is too mesmerizing to ignore. You give her a hungry smile as you move in close. You gently caress her soft round ass cheek, never breaking eye contact.

Your hand drifts to her ready pussy and you run your fingers through her almost frictionless folds down to her thick clit. She lets out a throaty purr as she arches her back, pushing herself back into your hand. You let your fingers trace either side of her clit, spreading her thick juices over her.

"C'mon [pc.short], don't leave me empty. I'm so ready for a holiday stuffing." She says, her voice breathy with anticipation.

You give her another smile as you snatch up the first toy that comes to hand; a squat butt plug on a string that more resembles a dog toy than a sex toy. The plug is only about four inches

long, but it's more than half that across too. It has what appears to be a string of fairy lights embedded in the pliant surface. Holly sees what you have in your hand and grins.

"That's a holiday version of an old friend, get it inside me." She says with a sultry tone.

With a{{pc.hasHadSexWithHolly}: / dubious} smile you press the blunt end of the thick toy to her dripping pussy and push. To your{{pc.hasHadSexWithHolly} : delight / surprise} her cunt dimples then swallows half of the toy with almost no apparent effort. Holly lets out a moan of pleasure and knots her fingers in the bed sheets.

"Don't be shy, really get it in there." she says between breathy gasps. "I can take a lot more than you'd expect."

Willing to take her at her word you push the toy in until her greedy snatch is stretched around the toy and your fingers. With a purr of pleasure Holly's pussy tightens pulling the pussy slicked toy out of your grip. You marvel at the sight as the glowing toy vanishes inside her. Holly lets out another throaty moan.

"I can hardly believe this used to fill me up." She purrs wiggling her ass back and forth. "It feels so lost in there. Find it a friend before it gets too lonely."

You find a seven inch vibrator wand tangled in the sheets and lift it to her gash.

"C'mon, [pc.short] you're going to throw that hotdog down this well? Why do I even have it? Give me something to test me."

With a grin you plunge the vibe into her sex in an easy thrust. Holly's astounding pussy accepts the toy with your whole hand still wrapped around it. Without waiting you release your hold on the vibe and pull your hand back out with a wet slurp. Next you grab a large Gryvain shaped dildo from beside the bed. Its foot long rubberised plastic feels almost as real as the real thing, all the way down to the tiny scales and ridges.

"Now we're talking."

Holly's hungry twat once more makes short work of the tapered tip of the dildo, and with a single long thrust you sink the cock inside her, three inch knot and all.

"I want to try those balls I brought home. I want my belly to be as big as a baby elephant." Holly begs.

Pleased to oblige you rush back to the lounge and gather up an armful of the huge vibes. When you return the deep holed woman is humming with desire as she caresses her tits with one hand and rubs her cum drenched clit with the other. As you approach she squats down and with

a groan of pleasure as she flexes her muscles and births the three toys out in a gush of fem lube.

For a moment she's left breathless, but as soon as she sees you holding her new toys she grins. "Get those things over here and into my belly."

You strip out of your [pc.gear] and kneel behind her again. Her thick love juices have started to puddle under her and have already soaked her striped stockings, leaving them spotted with dark wetness. It still amazes you, even after seeing her remarkable pussy in action, how slight her hole appears.

She gives you the nod and you press the first bauble against her dripping muff. Unlike the other toys it's a little difficult to get the ball shape into Holly's pussy, not helped by your pussy slicked fingers. Despite Holly's amazing stretch the smooth shape of the love egg resists being forced inside. After a minute of gentle encouragement her pussy reaches maximum dilation and with a sharp yelp of pleasure the ball disappears inside her. The human woman mewls and groans at the sensation for a moment, her hands rubbing her belly with delight.

When she opens her eyes they hold a new fire. "More. Give me more."

Happily you spend the next half hour steadily feeding more and more orbs into her greedy twat. Going back twice to collect more of the baubles from where they lay discarded on the couch. After the first armful you start to feel the balls bumping against the ones already inside her as you push the each one in. After the second they stop vanishing into her entirely and remain stretching out against her cunt from the inside like a crowning baby, but still she begs for more.

Soon her belly is so distended she can no longer reach her clit and you take over for her, roughly rubbing her big pleasure buzzer between inserting the giant Christmas colored love eggs.

After another ten minutes you run out of Christmas themed vibrator balls to shove inside the unending hole. Holly is almost completely incoherent with pleasure. She rubs her hands across her belly, feeling the odd shapes that cause it to bulge out like a pregnant mother. After a moment she seems to come back to herself.

"[pc.short], there's a remote control on the couch... Get these angels singing." She begs.

It takes just a moment to find the controls and you quickly switch it to the lowest setting. Holly gasps in pleasure, her fingers digging into the taut flesh of her stomach as the vibes start to move inside her. "Fuck that's great, but I think it's time I give you a little something back."

Then you see the outline of yourself as you spear her on your massive cock. You grab the hem of her dress and pull it up to expose more of her smooth pale flesh as you sink inside her. Your cock is clearly visible outlined in her soft skin, burrowing up impossibly deep like some kind of invading alien parasite. You marvel as the bulge disappears beneath her ribs without so much as a moment's pause.

You can feel Holly's heart beat all along your massive cock as you bury yourself to the hilt in her pliant body, her hot slick pussy wrapping around the [pc.knot" + x + "] of your monster cock and giving it a lewd kiss. But you don't wait long before you start to pull yourself back out.

Your breathing comes harder as you slide your dominating cock in and out of the deliciously tight slit. Holly spreads her legs to rest her feet on the edge of the bed giving you open access to her miraculous vagina. Her breathing is just as laboured as yours as you plow her furrow with a cock that should, by all rights, split her in two.

You pick up the pace as you get into your work. Holly's unbelievable cunt takes whatever you can throw at it and you soon find yourself rutting her like a stallion. As you slam into her you reach out to play with her slippery clit. It's thick shaft is exposed and pulled tight against you as [pc.cock" + x + "] stretches her pussy into an obscenely wide circle.

"Oh God!" Holly gasps between shuddering thrusts. "I think I'm in love with your monster cock. Ride me hard [pc.short]. Break my fucking cunt! Break me!"

You're happy to oblige the blissed out woman as you redouble your efforts to pound her insides into her throat. Holly becomes increasingly incoherent as you slam yourself again and again against her fuck hole.

As you watch her start to buck and twist with orgasm you press your fingers under her clit to scoop your hand inside her. The next thrust of your giant member pulls your hand inside her in a smooth movement that elicits a thrash of uncontrolled passion from the impaled woman. On the next thrust you ball your fist. As your hand disappears once more inside her you see the outline of your fist lodge itself inside her pubic mound where you hold it steady, grinding it against her G-spot as you pump furiously with your cock.

Holly explodes in pleasure at the renewed stretching, her legs fly out to wrap around you and pull you in completely. The spasming of her pussy puts you over the edge too and you spill your [pc.cum] deep inside her distended belly. Together the two of you buck and grind as you fill her endless cunt with your hot seed.

Slowly you both settle down from your orgasms and you manage to extract your hand from where she trapped it inside her throbbing pussy. In a slow motion you slide your mammoth rod from her wrecked fuck hole. The two of you climb up onto the bed and cuddle up under the sheets. But Holly clearly has more than a cuddle and a doze in mind. Her nimble fingers are stroking your softening shaft almost as soon as you lay down next to her.

"Are you ready for round two?" She asks as she climbs up onto you to straddle you, pinning the object of her desires between your bodies. She pulls her dress off over her head and presses her hand filling tits against the underside of your rod, giving it a playful lick. Her lips come away wet with your combined juices and she gives you a wicked smile as she shimmies up far enough to bring your cock to bear against her abused pussy.

"We're only just getting started here lover." she coos.

It takes an hour of gut stretching fucking and pussy filling orgasms before she's willing to let you extract your cock from her greedy hole to shower and dress.

"Merry Christmas [pc.short]. That was a great present." She says rubbing her belly. Her well fucked hole still showing the signs of your massive entry. You wouldn't be surprised if even her cunt gapes a little more after the thorough fucking you just gave it.

You give Holly a little wave as you head back out into the station.

Blow Job

// Continuation of the pussy stuffing sex scene customised for PC's with dicks.

Holly pats the bed above her head and you climb easily into position with your legs either side of her. She smiles up at you as she admires [pc.belly].

The stuffed woman leans down to press her bright red lips to [pc.oneCock], giving gentle worship to the underside as she watches your reaction from beneath heavy lidded eyes. {[pc.hasSack] Holly makes her way slowly down your length until she reaches [pc.sack], gently pulling and sucking on the elastic flesh containing [pc.balls]}. [pc.Cock " + x + "] twitches at the attention leaking warm pre onto your [pc.belly].}

With a smile of your own you reach over and flick the pulse switch on the vibrator control, sending a powerful wave of pleasure through your lover. She momentarily pulls back her breath coming in sharp gasps as she composes herself. You wait for her to calm and hit the button again. You hold it down for a moment longer this time and Holly convulses with pleasure her face pressed against your [pc.crotch] as she catches her breath.

Again you wait for her to calm down before you clear your throat. She looks up into your [pc.eyes] and you give her a raised brow, indicating you're waiting for her to get on with things. With a smile she lifts her head back up and brings her lips to your [pc.cockHead " + x + "]. She takes a deep breath in and opens wide to engulf you.

She bobs her head several times, her nimble tongue flicking like a caged butterfly against you, before she pushes down hard. {[pc.cock " + x + " length > 5] Her throat opens to accept you as she swallows you down.} Her delicately fluttering tongue struggles to keep up the light caresses as you force her jaw open wider, but she remains fantastically attentive to all of the right spots. {[pc.cock " + x + " girth > 2.5] You marvel at just how easily she can accommodate your girthy tool.} {[pc.hasKnot " + x + "]} Holly's lips stretch out around the start of your [pc.knot] and you feel her tongue working along the sensitive flesh between her lips.}

You grace her with soft sounds of pleasure as you flip the vibrator switch up to a higher setting. The effect is immediate and Holly lets out a rumble of pleasure. Her deep throated purring acts like a vibrator for you as she continues to suck as much of you as she can fit.

Together the two of you fill the hotel room with increasingly urgent sounds of pleasure. After a few minutes that seem like an hour of bliss you can feel your [pc.balls] tightening with the need to cum. You tighten your fingers in her ruffled hair and mash the vibrator switch to the highest setting.

Holly lets out a yelp of surprise, muffled by your cock as her belly begins to vibrate uncontrollably. She mewls and gasps around the intruding member but redoubles her already fine attention on your member as she starts to convulse with her own orgasm. You're dimly aware of the wet sound of heavy love eggs hitting the deck amidst the splattering of girlcum as she sucks you like a hull breach.

It takes only a few moments longer before you start to cum. Holly, however distracted she might be, reads your tension correctly and pushes you all the way in, her plump lips stretching and

circling the [pc.knot] of your [pc.cockNounSimple " + x + "]. You let out a desperate breath as you cum, dumping your [pc.cum] directly down her throat.

After you're spent Holly finally slides free of [pc.cock " + x + "] gasping. Her lips are a little swollen, looking almost bee stung from her exertions, but she's smiling widely. She reaches over and pushes the vibrator control down to the lowest setting allowing her twitching body to settle down. You notice that at some point her spasming pussy must have pushed some of the baubles out of her overstretched hole. Several orbs rest between her stocking clad thighs, glistening with a generous coating of her pussy juices.

"Thanks... Thanks for the... The help." she says between gasping breaths.

You give her a weak smile and a thumbs up.

After a few minutes of companionable rest you and Holly decide to get cleaned up. But the stuffed human insists on giving your cock a thorough clean with her tongue. It soon devolves into another, more sedate blowjob. Holly is just as attentive and you return the favour with her still stuffed pussy.

It takes an hour before she's willing to let you shower and dress.

"Merry Christmas [pc.short]. That was a great present."

Ass Fuck

// Continuation of the pussy stuffing sex scene customised for PC's with a cock or a Hard-light strap-on.

// Only available for PC's with a cock smaller than 14 inches. (Holly's butt isn't super stretchy like her pussy.)

"I've got a better idea." You reply with a smile.

{[pc.hasCock] : You reach down to grab [pc.smallestCock], gripping the shaft around the [pc.knot" + x + "]. / You flick the switch on your [pc.hardlightCock], the energy penis thrumming into life in a second. You grip the shaft of pure energy in your hand tightly, the slight buzzing sensation of the energy phallus making your hand tingle.} You push your cock up against Holly's dripping slit, coating it's surface in her copious natural lubrication before pressing the tip to her neglected butt.

Holly lets out a little gasp of surprise. "Take it easy back there, OK? I'm not as stretchy in there as I am up front."

{[pc.alignment] < 50 : You give her a little nod as you gently press [pc.cockHead" + x + "] into her ass, which dimples and finally stretches to accommodate you. / You give her a wicked smile and push forward with a sudden thrust. Holly has barely a second to react before her ass stretches to fit you.}

"Ooohh, fuck! Yes!" She moans as your {[pc.hasCock] : cock / hardlight strap-on} slides into her ass on the thick coating of her pussy juice.

{[pc.hasCock] : You let out your own moan of pleasure as you sink into her butt. You can feel the shape of the balls stuffed inside her pressing against [pc.cock" + x + "] through the wall of her pussy. Even if she had an ass as stretchy as her fantastic pussy you are pretty sure with the stuffing she's had her asshole would feel like a vice. / You can feel how tight Holly's ass is. The shapes of the balls stuffing her pussy make the hardlight cock shift and twist against your [pc.crotch]. You're pretty sure that Holly's asshole would be enough to break an ordinary cock.}

{[pc.alignment] < 70 : You give Holly a moment to get used to the intrusion in her back passage. Combined with her stuffed pussy you're certain the experience is very intense for her. With cautious slowness you pull yourself back and slide slowly back into her ass. / You don't want to give the little slut a moment to catch her breath. You know that she's stuffed to her limits and you want to push her a little further. Without any hesitation you draw yourself back and plunge back in fast.}{[pc.hasCock] : The feeling of sheathing yourself in her crushing warmth is just the right side of painful and you let out a long sigh as you sink {[pc.hasKnot" + x + "] : yourself up to your bulging knot / your whole length} into her depths. The thought of filling her so completely adding to the pleasure of the penetration. / The pressure of the hardlight strap-on against you is testament to Holly's tightness and you find yourself a more than a little turned on imagining the feeling of getting deeply reamed with a belly stretched so full. }

Holly gurgles with pleasure and you take that as your cue to get things moving. {[pc.hasKnot" + x + "] : No sooner have you buried yourself to the knot / No sooner have you hilted yourself} you pull back at the same pace. You start to piston in and out of her tight butt in a steady rhythm, reaming the little pucker with a {[pc.alignment] < 50 : determined / battering } pace.

Holly continues to mewl in delight at the treatment as her backdoor clings tightly to your shaft, bowing out lewdly as you pull yourself back and sinking into a deep crater when you thrust forward. You pick up your fucking as best you can, building to a furious pounding that rings with the sticky slapping sound of [pc.hips] against her pussy juice slicked butt.

As you pound at Holly's rounded ass{[pc.hasBalls] : [pc.balls] slap at / you bump yourself against} her gaping twat nudging the bulging orb stretching her pussy a little further inside her insatiable hole. A fact that only adds to Holly's mounting orgasm.

You're breathing hard{[pc.hasCock] : and ready to cum} when Holly begins to shake and shudder with another orgasm.{[pc.hasKnot" + x + "]" : With a renewed effort you manage to stretch Holly's little rear enough to sink your [pc.knot" + x + "]" inside her. Her already tight asshole clamps down on your impaling rod, making it almost impossible to thrust any more, but you continue to try. Holly shrieks with unrestrained pleasure as her body jerks with a monstrous orgasm.

{[pc.hasCock] : Her lustful abandon is enough to set you off too, as soon as her ass unclenches enough you drive yourself into her, hilding yourself in short frantic thrusts as you spill your seed into the depths of her bowels. Holly lets out a shuddering moan of pleasure as your hot cum paints the inside of her asshole.}

With halting thrusts you pump yourself in and out of Holly's spasming hole{[pc.hasKnot" + x + "]" your knot preventing you from withdrawing far}, and slowly winding down to one last thrust. With a gasping breath you collapse against her sweat slicked back. You've clearly ridden her into a real state, and the two of you lay that way [pc.chest] pressed to her soft back as you both catch your breath.

Together the two of you doze like that. Finally after about an hour{[pc.hasKnot" + x + "]" : your knot softens enough for you to / you} withdraw from her abused anus with a slurping pop. Unlike her pussy her ass remains widely agape after your member has slipped free.{[pc.hasCock] [pc.Cum] slowly oozes from her backdoor to trickle down her thighs to join the other stains upon her stockings.}

Holly remains pretty out of it as you slink off into the shower to wash off. When you return to the bedroom Holly is muzzily waking from her post orgasmic stupor.

"Merry Christmas [pc.short]. That was a great present."

You give Holly a little wave as you head back out into the station.

Get Her Off

// Sex scene for characters with no genitals or for those who want to give without receiving.

"Oh no, you don't get away with it that easily." You say with a wicked grin. "This is all you."

Before she can object you crank the vibrators up a notch. Holly yelps in pleasure, any objections she might have had dying on her lips.

With one hand you reach down to rub her belly. You can feel the bulges of the love eggs moving under the skin of her taut stomach. You press on the shapes, causing them to shift inside Holly's stuffed cunt. She mewls with inarticulate lust as you rearrange her insides.

You continue to juggle the balls inside her for a few minutes, Holly's moans becoming increasingly joyful as the motion of the balls combines with the vibrations from within them. As you see her legs start to tremble you push the vibrator control into the top of her stockings, flicking the switch into high.

Holly convulses with pleasure, her ass pushing back into you as she gushes fresh girlcum from around the love egg holding her pussy open. With your now freed hand you reach up to press hard against the crowning sphere between her puffy lips, it sinks a little back into her twat with a fresh yell of pleasure from the human fuck balloon. With your palm against the ball in her pussy you press your fingers to her bulging clit. Her juices are running so freely from her pussy that they are dripping from her clit into a small puddle between her legs in thick ropes.

With deft motions you flick her love button back and forth with merciless speed. Holly grunts with effort as her whole body spasms and tries to eject the contents of her overstuffed pussy again. Orgasms wrack her body as you pound her love button furiously.

"M-m-more!" Holly practically screams, bucking wildly.

Unwilling to keep the woman from what she wants you press both your hands to the vibrator distending her cunt and push forward. There is a moment of tension and then you feel the balls shift as your forearms disappear inside the incredibly hot slick tunnel of Holly's cunt. Holly lets out a shriek of incoherent passion as you drive your fists deep into her stretching her belly yet further.

Without hesitation you start to pump your fists into her in alternating thrusts, sinking them up to the elbow in superheated lady juices. Her cum splashes down your arms and over your

[pc.chest] in a sudden wave as you pull your arms apart to spread her endless twat into a gape wide enough to fit your head inside.

Holly gives one last shaking yelp of pleasure before she falls face first into the sheets, senseless with bliss.

Slowly you withdraw your hands from her still gushing twat and turn the vibrators down and finally off. Even holly's miraculous pussy seems a little stretched out by the rough treatment and several of the love eggs flood out of her and into your lap amidst a torrent of her passion in a series of wet plops.

You admire her heart shaped ass for a long moment. You watch as her swollen cunt throbs with echoes of her epic orgasms before you carefully lift her onto the bed to rest and cuddle up beside the spent woman.

After about an hour you climb into the shower and wash off some of the fem-lube plastered to your body. When you return to the bedroom Holly is muzzily waking from her post orgasmic stupor.

"Merry Christmas [pc.short]. That was a great present."

You give Holly a little wave as you head back out into the station.

Hi [pc.short]!
```

I hope you're doing ok... I really enjoyed spending time with you the other day.
{[pc.hasTalkedHollyHer] : My sister still isn't back from wherever she went off to investigate, but I've got two tickets to a new year's party here at Anon's on Tavros station. I was wondering if you'd like to come?

The party starts at 19:00 on new year's eve. Hope to see you there.

Holly ;)

Party

// New year's party at Anon's on Tavros station
// Occurs if [pc.hasMetHolly] > 2
// Occurs between 19:00 and 23:59 on December 31

You see Holly looking a little uncomfortable, she's holding a half full glass of something colorful that looks very sweet. From the look of her she's been nursing it and trying to pluck up courage to mix with the building crowd.

You slip up beside her and greet her. Instantly she goes from apprehensive to overjoyed. She flings her arms around you in a big hug. "[pc.Short]! You made it!"

You manage to extricate yourself from her embrace with only a small amount of her sticky sweet drink split on your [pc.armor]. Together the two of you secure you a drink.

As the party gets into full swing you spend time chatting with the sexy woman, she's wearing another flirty skirt the hem of which sits off her curvy hips high enough to expose the tops of her stockings. Unlike the candy cane striped woolen socks and lady Santa outfit you first saw her in, Holly's dressed for a night out. Her skirt is a vibrant green and her pale legs stand out sharply against the dark sheer material of her stockings.

The two of you drink, dance and enjoy yourselves and before you realise it it's almost midnight.

"So, how do you want to kick off your new year?" She asks with a deep blush you've come to associate with Holly's hornier side.

Countdown Hug

10... 9... 8...

You turn to Holly smiling and lean in close to her ear as the crowd get louder. "I want to start the year with my new friend, partying into the small hours!"

7... 6... 5...

You see a small look of disappointment flick over Holly's round face, but she hides it well. "Sounds like a great plan."

4... 3... 2...

Holly grabs your hand and leads you into the crowd as the countdown reaches its crescendo.

1... Happy New Year!!

You give the woman a warm smile and throw your arms around her in a big hug. Her face lights up as the two of you dance and hop around like teenagers cheering and shouting. As you settle down her face falls a little from the stellar bright smile she's been radiating to a private smile shared just with you. She leans in and gives you a chaste kiss before grabbing your hand and pulling you out into the dance floor.

You spend the evening doing everything you had wished for; dancing, drinking and celebrating with the people of Anon's.

"Don't be like that." You say, taking her face in your hands. "We've got all night!"

1... Happy New Year!!

As the crowd erupt into cheers you pull Holly in for a long kiss. You take things slowly, biting at her lips and toying with her tongue. The crowd around you make their way through two verses of their celebratory song before you finally break off the kiss. Both of you are breathless and you notice Holly's eyes are a little dazed.

"Happy new year." You whisper and give her another quick kiss.

You spend the evening doing everything you had wished for; dancing, drinking and celebrating with the people of Anon's. It's late when you stumble back into her apartment together. You drop into her couch with a groan. You're more than a little buzzed, your feet ache from dancing and you're lips feel swollen from the kisses Holly's been laying on you all night.

"Night cap?" Holly offers.

"What?" She asks.{{pc.exhibitionism} < 70 : Taking her hand you pull her to a quiet corner away from the crowd, w: W}ithout responding you drop to your knees before her. With deft fingers you

slip your hands up and under the hem of her short festive dress to pull her panties down. They come with a little tug, bringing with them a thick knotted dildo she'd been smuggling and a rush of thick pussy juice.

7... 6... 5...

"What are you doing?" She asks in a hushed whisper, looking around her nervously.

"Starting the new year the way I want it to continue." You say.

4... 3... 2...

You flip up her little skirt up exposing her puffy pussy. Her labia are swollen with arousal from the dildo stretching. She tries to cover herself but you push her hands away.

1... Happy New Year!!

As the crowd cheer from {[pc.exhibitionism] < 70 : a little way off : all around you}, you press your face between her legs giving her dripping cunt a deep, wet kiss. Holly gasps, her hands flying to your head as your tongue flicks against her thickly swollen clit. You run your hands down to grab handfuls of her soft butt. Your fingers sink into the soft flesh of her behind as you pull her hard against your face. You plunge inside her, tongue fucking her hot slit mercilessly as her copious juices flow out over your chin. Your nose presses into the thick bulb of her clit as you lap up the free flowing girl cum.

Holly spreads her legs to give you better access to her pussy. Her legs trembling with pleasure as your questing mouth assaults her delicate nethers. She whimpers as an orgasm sweeps through her, her legs finally giving out. You grip her pliant ass tighter, holding the woman up and against your mouth as her prodigious pussy clamps down on your flicking tongue and squirts thick feminine cream over your [pc.chest].

It takes a moment for Holly to regain the use of her legs enough to support herself. Once she's upright on her own you reach down and scoop up the discarded dildo wadded up in her pussy slicked panties. You unceremoniously slide the thick shaft between your lips, pushing it past your lips and into your throat in a single fluid motion. You fix Holly's eyes with your own as you suck her arousal from the jaw stretching cock. The taste of her fills your mouth and her drenched panties fill your nose with the smell of her cunt and for a moment you consider shoving your face back between her legs for a second helping. But you resist pulling the now clean sex toy out from your mouth you push it back into Holly's dripping twat in a long thrust. The flared knot at the base of the cock pops inside her stretchy hole with the barest hint of resistance.

Holly shudders with pleasure as you drive the toy home. When she opens her eyes you're close to her face.

"Take me back to your place, now." You say in a lusty voice before pulling her into a passionate kiss. Your lips and face are still soaked in her cum and as you push your tongue into her eager mouth you hear her purr with delight at her own taste.

Together the two of you hurry out of the party and grope each other all the way back to Holly's little apartment room. You push her roughly against the door as soon as it shuts behind you, your hands roaming freely across her breasts, her ass, her back. She pushes you back and manages to guide you both to the couch where you collapse in a tangle of limbs and roaming hands amidst the arrayed products Holly is testing today.

Hi [pc.short]!
```

I'm really sorry I didn't get to see you before I had to head home. It was {[pc.hasHadSexWithHolly] : epic / great} meeting you. Ivy and I managed to get our Christmas lunch (a little late but we made it). Unfortunately she also managed to get some STI from that jungle planet! She and I are shipping home to get her sorted out. Maybe she'll be more careful next time! (If Dad lets her head back out there in his lifetime!)

Anyway JoyCo keeps me pretty busy, but I hope to see you again. Hopefully before next year!

Stay safe out there in the stars.

Holly ;)
