

# Design Your Own Course

**Credits:** Other (See Staff to Learn more)

**Competencies:** Your Choice

**Course Description:** WHAT and HOW do you want to learn? If you have ideas for topics to learn about, activities to do, projects to create, Bronx Arena competencies to develop, or something you'd like to teach to others, then it's time to put you in charge! In this course, you'll work with a teacher (and peers, if you'd like) to create a whole new course that is interesting to YOU.

This is a flexible course. If you're interested in course design, you may spend a lot of this credit planning and creating parts of the course. If you're more interested in doing the work itself, you may share your ideas with your teacher, who will develop the course for your review. Once the tasks, project, and rubrics are created, you get to do the work you designed!

**Interests:**

## COURSE INFO:

**Class Meeting Time/ Location**

**Interactive Experiences:** Your Choice!

**Class Format:** Your Choice! Talk with your Teacher(s) to plan

**Join:** Anytime! (rolling)
