Candidate Songs

(songs that might be from a new genre)

Suggestion Format:

Song name (w/link)

Comments, possible genres

[Thine Father Discord \(Daddy Discord Medieval Spoof\)](#)

Bagpipes and drums - Minstrel or medieval music?

[Glaze's Nightmare Nite \(Remix of "Nightmare Night" by Wooden Toaster/Mic The Microphone\)](#)

Swing? (listen until singing starts) Certainly a bit of a different feel

[Closed For Winter](#)

Ochestralstep (?) Author says this is background, maybe? It sounds a bit different, so wondering if it's unique in genre.

[Dark Hearts Rise](#)

Darkwave (suggested by Jabob Bills)

[Lauren Meets Rule 34](#)

It's listed as Industrial, and while it has a rawer sound than most modern music on the industrial spectrum it still isn't pure industrial, it's some sort of EBM. Anyone know what it's called?

[Tarby - Nightmare Moon](#)

Another Industrial influenced one, it's some sort of mixture of Synthpop and Industrial. Do you think it's Futurepop?

[BronyMike befriends WoodenToaster - Wacky Factory](#)

...

[crazyoatmeal3 - In Royalty You Lay](#)

Space Rock?

[I Am No Hero - Original MLP song by MandoPony](#)

It's pretty much Grunge.
