

ZIG BLENDER PEN REFILL RECIPE

Ingredients needed:

1 ounce empty bottle
glycerin
rubbing alcohol
purified water
small glass
blender pens

1. Mix the ingredients:

Fill empty one-ounce bottle 1/3rd of the way full with glycerin.

Then add 1 tsp. rubbing alcohol.

Fill the rest of the bottle with purified water.

Shake gently.

2. Refill-Rehydrate the blender pen:

Place a small of this mixture in a small glass

Set the uncapped blender pen tip in the glass.

Allow the blender pen tip to absorb the liquid for 1/2 hour or until the blender pen is re-hydrated.

3. Save the remaining mixture in the bottle until you need it the next time. Enjoy!
