

SAFARI IN JALAPÃO

In the heart of Brazil, a wilderness area of savannah, crossed by clear crystals rivers, with eroding flat-topped mountain ranges and deserts of sand, this is *JALAPÃO*. The State Park feels so remote

that even the wildlife seems to have left, but not the true. Cerrado - an endemic ecosystem very rich in biodiversity, where Macaws do proliferate, with maned wolves, foxes, armadillos and anteaters are also possible sightings. One of the highlights of a visit to Jalapão are the “**fervedouros**”, watering holes where underground rivers burst through the sandy surface, always surrounded by

banana trees around them. The joy of spending time in these pools, makes the journey out to Jalapao worthwhile. These beautiful spots have the distinction of making it impossible to sink in the water, as the bubbling sand helps you to stay afloat. Then completing the paradise Caves, Canyons, Crystal clear lakes and lots of waterfalls. We can forget the exotic fauna, endemic and unique like hundreds of rare birds and at the Rainforest around the rivers is home to giant otter, caiman, turtles and the Jaguar.

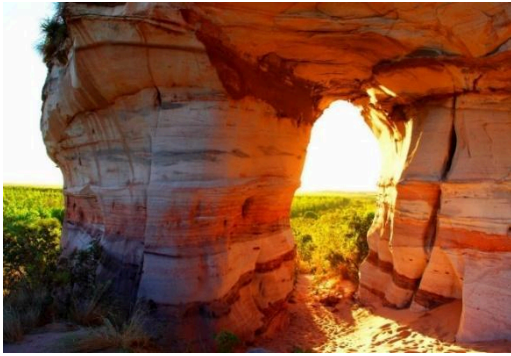

The natural way of this Safari, the camps and panoramic trips from The Truck and sights included will make this tour a real experience.

See our 2 Trip proposal with regular departures.

EXPERIENCETOUR: Travel is not a simply move from one point to another to have the chance of relax, visit and eat in a different place than Your home town, it could be a life experience, if you do it in a sustainable way protecting the environment and supporting local economy and culture.
Terra Brasilis is fully engaged in sustainable travel.
