

Peer Advisor at AI Safety Quest

Peer Advisor at AI Safety Quest

Fully Remote | Volunteer Opportunity | Part-time (min 3h/week) | 6 month commitment

Help Newcomers Find Their Path in AI Safety

We're recruiting peer advisors for our Navigation Calls program, which provides short advising calls for people who are interested in getting involved in the field of AI Safety.

Why This Role Matters

Our Navigation Call program helps people interested in AI safety understand and enter the AI safety field. We need volunteers who can guide these aspiring contributors through the AI safety ecosystem by providing them with coaching and context on the field.

What You'll Be Up To

As a Navigation Call Navigator, you'll be at the forefront of supporting individuals exploring the AI safety landscape:

- **Peer Advising:** Conduct 30-minute navigation video calls via with AI safety enthusiasts at various experience levels, providing personalized guidance and resources.
- **Coaching:** Offer constructive guidance on skill development, help advisees to build a map of focus areas, and concrete next steps.
- **Resource Mapping:** Develop deep knowledge of AI safety resources and opportunities, understanding the nuances between different organizations and programs.
- **Connection Fostering:** Actively help attendees connect with similar-minded individuals and complementary skill sets within the AI safety community.

Desired Qualities

- **Empathetic Communicator:** Strong coaching and advising skills with excellent active listening abilities.
- **Learning Enthusiast:** Passionate about continuously expanding knowledge of the AI Safety ecosystem.
- **Strategic Connector:** Ability to identify and facilitate meaningful professional connections.
- **Administrative Proficient:** Comfortable with scheduling tools and basic data tracking.
- **Mission-Driven:** Embody our values of openness, collaboration, and community-driven approach..

General Expectations

- **Availability:** You are available for at least 1-4 30-minute Navigation Calls per week.
- **Growth Mindset:** Our navigators typically are not experts in the field of AI Safety, but they are confident in learning about the ecosystem and finding resources and strategies that might be helpful for their peers.
- **Mission-Oriented:** Embody our operating values of openness, collaboration, perseverance, approachability, and community-driven approach.

Helpful Experience

- **Leadership:** You have tackled complex upskilling/career transition problems before, and you can use these experiences to mentor others as they navigate their own careers.

Why Join Us?

- **Make a Difference:** Directly influence the trajectory of aspiring AI safety contributors.
- **Community:** Engage with like-minded, dedicated volunteers on the AI Safety Quest team.
- **Flexible Commitment:** Volunteer at times that work best for you.
- **Support:** Get training and experience in peer advising and learning about the AI Safety Ecosystem.

How to Apply

Timeline: Applications will be rolling. We hope to recruit 2 Navigators by the end of October 2025.

If you feel unsure about applying, we would encourage you to attend one of our informational sessions. Check [our calendar](#) on Luma.

If you're excited about this opportunity, we want to hear from you! [Apply here](#). (Please note that Google requires you to sign in because our form accepts file uploads.)

We encourage all interested individuals to apply, even if you don't meet every single requirement. There's no such thing as a "perfect" candidate, and we believe in growth and learning. Join us in our quest to build a safer AI future!
