

RECRUITING RESEARCH PARTICIPANTS

Purpose of this Study

The purpose of this research is to examine if the technological approach of utilizing mobile learning to deliver emotional intelligence training may be effective for online college students. Participants will download an app, report on their experiences with it weekly, and will be interviewed for 15-30 minutes on zoom at the end of the study.

Eligibility

To be eligible for this study, you need to meet the following criteria!

18+

Enrolled in a college program

Access to mobile devices

This study will be conducted **virtually/remotely**. The length of this research will be four weeks. \$50 dollars as a form of monetary inducement will be provided for each participant at the end of the study
