

1. Turn your speech into main bullet points on THREE index cards. You will use these when making your speech next week.

- What are the most important points to remember for your speech?
- Do not write down too many words. **This is to be used for reference only.**
- Make sure to make it legible!
- Cards will be handed in after final speech is given.

2. Practice your speech from the cards at home and OUT LOUD.

- Practice multiple times. Find someone to listen.
- **Practice with eye contact.**
- Use a timer. Your speech must be no less than THREE minutes, no more than FIVE minutes.

3. Be ready to give your speech, in small groups, on Thursday. There will be peer feedback.
