# GCSD Authenticate

For Off-Campus Connectivity

1. Click on the GCSD Authenticate icon on your Shelf (menu bar at the bottom of the screen). It looks like this:

2. This will open your Chrome browser and will show a screen with instructions to allow internet access on a network outside of Greenville County Schools.

   Select the number of hours you need this access; 1 hour is selected by default.

   Enter the same **username and password** as you would use to log onto your Chromebook, and click the "Log in" button.

3. When you have successfully logged in, you will see a screen with instructions to restart your browser. **Close Google Chrome** (not just the tab) by clicking the X in the top-right corner, then re-open the application.

   You should now have access to approved webpages!
