***Abstract*– The abstract should be written in Indonesian and English, bold and italicized, between 100 – 150 words. The English abstract proceeds the Indonesian abstract. The abstract must be concise, containing objectivse, methods, results, and conclusion.**

Kata Kunci- Keywords are written in accordance with the language used in the body of article, separated by a semicolon (;) and listed alphabetically. Keywords must be carefully selected, precise and able to reflect the concept/variables discussed in the article.

I. INTRODUCTION

The introduction should consist of the background of the study, research contexts, and research objectives[1]. The introduction should be written in well-composed paragraphs. Avoid using subheadings in this section[2].

II. LITERATURE REVIEW

The literature review is written in paragraphs[3]. It discusses highly relevant literatures form various sources like general scientific books, theoretical books, theses, dissertations and scientific journal articles[4].

III. RESEARCH METHODS

This method section is written in paragraphs (avoid using subheadings). It onsists of description concerning the research design (research site and participants or documents, data collection, data analysis, and measured variables).

IV. RESULT AND DISCUSSION

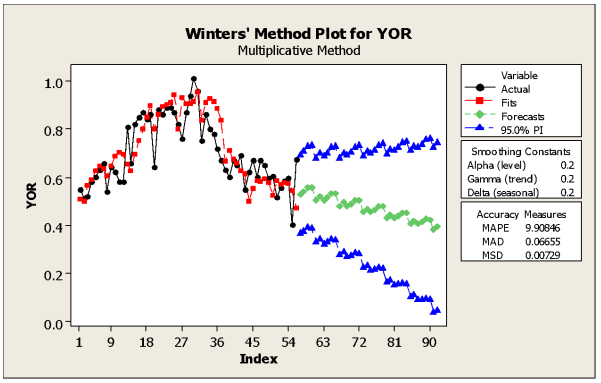

The results and discussion section is presented in paragraphs, containing the description of the results of the data analysis. The discussion of the results is argumentative regarding the relevance of the results, theories, previous research and empirical findings. It is also mandatory to highlight the novelty of findings.

Tables and figures are used to provide supporting explanation. Avoid using vertical lines in the tables. In the description, avoid using the likes of "the above table" or "figure below," but "Table 1," "Figure 2," so on. Every table and figure must be captioned, numbered, and centered. Include the source of tables or figures when applicable. Take Table 1 and Figure 1 for examples.

Table 1. Bank Ownership

No.	Bank Ownership	Number
1	State-owned banks	9
2	Private banks	50
3	Foreign banks	8
4	Jointly-owned banks	7
	Total	74

V. CONCLUSION AND SUGGESTION

This section must be written in well-composed paragraphs. The conclusion must be concise, providing a description of the contribution of the findings to existing knowledge. This section should also provide suggestions for further studies. The conclusion should not be a restatement of the findings, but what could be inferred from the findings.

VI. REFRENCE
