THE MOMENT

The DACA program is being [dismantled piece by piece](#), with renewal delays costing jobs and putting thousands at risk for deportation and detention, and court decisions that make it easier to detain and deport DACA recipients. At the same time, the recent Supreme Court decision on Haitian and Syrian TPS is setting the state for the largest de-legalization emergency in U.S. history with one million and a half Temporary Protected Status (TPS) holders stripped of their protections.

The consequences of these mass delegalization attacks have been devastating.

A functioning economy needs stability, but that's not possible when millions of working people are losing their status. Programs like DACA and TPS might be temporary, but the careers, families and lives built over decades are not. Millions of immigrants are responsible for keeping our nation functioning: taking care of patients in our rural hospitals, teaching our children in our schools, running local businesses, and building homes.

Like all working people, immigrants are being treated as disposable despite powering our cities, our country, and our economy. But we don't have to be in this chaos. The solution to this mass delegalization campaign exists right now: The Dream and Promise Act.

The Dream and Promise Act ([H.R. 1589](#)) has been filed as a discharge petition, which would provide a pathway to citizenship for over 4.4 million immigrant young people, DACA recipients, and TPS holders. This opportunity is monumental. A pathway to citizenship would provide long-overdue stability and deliver real solutions for working people.

If 218 Members of Congress add their name to the discharge petition the Dream and Promise Act will be brought directly to the House floor for a vote. **Right now, we're at 210 signatures with only 8 left to go!**

Call the below key Members of Congress today and urge them to add their name to the Dream and Promise Act Discharge Petition.

Calling Script:

"Hello, My name is _____, and I am calling to urge Congress member _____ to add their name to the Dream and Promise Discharge Petition, bill number [HR 1589](#). This bill would protect immigrant youth, DACA recipients and TPS holders.

A functioning economy needs stability, but that's not possible when millions of working people are losing their status. Programs like DACA and TPS might be temporary, but the careers, families and lives built over decades are not. Millions of immigrants are responsible for keeping our nation functioning: taking care of patients in our rural hospitals, teaching our children in our schools, running local businesses, and building homes.

The majority of Americans support a pathway to citizenship for our neighbors who have built their lives here, and the Dream and Promise act would allow that while protecting our economy.

I urge Congress member _____ to add their name to the Dream and Promise Discharge Petition. No young person should have to build a life on borrowed time, and no family should have to wonder if everything they have built will disappear overnight. This is your opportunity to stand with everyday working people that keep our state running, and show that you're willing to support a future that works for us, and not a future of political dysfunction and chaos"
