

# Transparency Commission Report: Blaze

**Submission ID:** 05bc8ad9-2572-4f77-ae78-29ef08c15244

**Submission time:** 2024-03-05T20:30:29.103Z

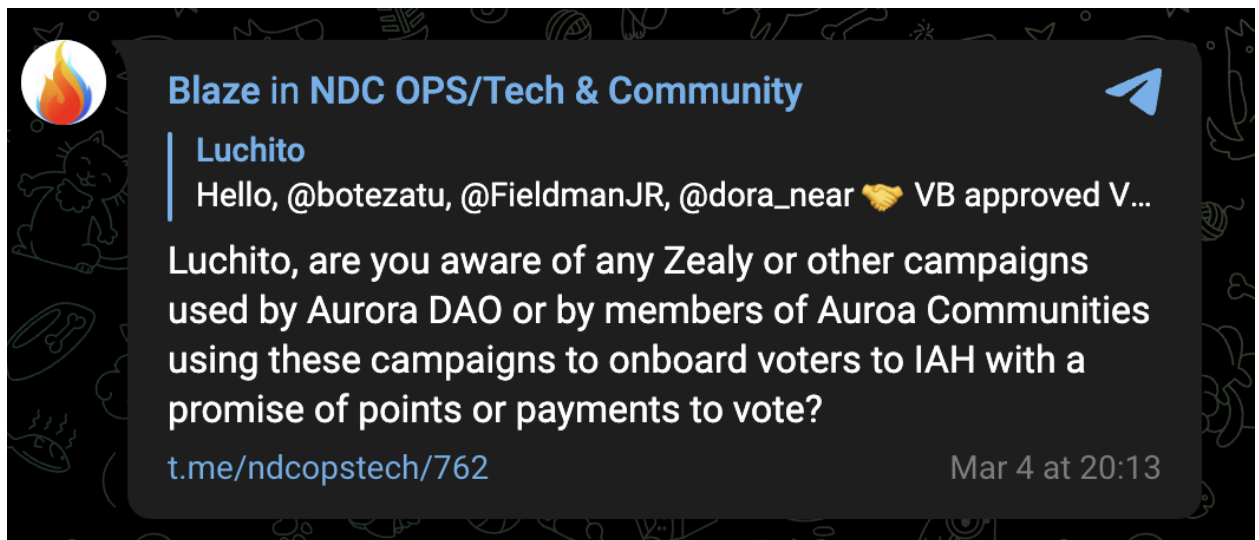

**Subject of Investigation:** Blaze

**Nature of Investigation:** Violation of Policies (incl. Code of Conduct)

**Summary of the report:** Direct attack on Aurora Community DAO

---

- TC received a report alleging that Blaze has attacked Aurora Community DAO and tried to demean the image of AC DAO in the community.

## Conclusion and TC recommendation:

- There is no evidence as of now to prove that AC DAO paid members to vote in the VB proposal. There was a general post to vote on the proposal without any mention of which side do the members need to vote for. At the end every GDAO promoted VB voting, it's not right to target a particular DAO and create their negative image even being a Congress member at the time of incident. Detailed TC report for the same > <https://gov.near.org/t/report-transparency-commission-investigation-on-voting-body-proposal-4/38922/2>

- We recommend Blaze to avoid such direct attacks in future for any community member or Grassroot DAO. If there is any evidence against someone, kindly [file a report](#) to the Transparency Commission.
