**Affiliation:** Approved Clients

**Manufacturer:** Aurora Industries

**Model:** AI-004 Pegasus Class Heavy Battlecruiser

**Modularity:**

- Gun Emplacement(Limited)
- Hanger
- Shielding(Limited)
- Basic Systems (Comms, sensors)

**Production:** Limited

**Material:**

- Turadium/Durasteel compound Frame
- Quadanium and Durasteel Shell
- Transparisteel viewports with Durasteel shutter rigs
- Antimatter Annihilation Core with secondary Hypermatter Generator

**Classification:** Assault Destroyer

**Length:** 2500 Meters

**Width:** 1175 Meters

**Height:** 748 Meters

**Armament:** Rating - (19) (Gun Number - 2800 Turbos, 0 Warheads, 210 Laser cannons

- 1 Mjolnir Class Antimatter Cannon (Worth 300 Turbolasers)
- 15 [Neuron Long Range Heavy Dual Turbolaser Batteries](#) (80 per gun/1200 total)
- 5 [Nebula Long Range Heavy Dual Electromagnetic Plasma Cannon Batteries](#) (128 per gun/640 total)
- 10 [Gremlin Long Range Heavy Dual Rapid Fire Ion Cannons](#) (32 per gun/320 total)
- 10 [Comet Long Range Heavy Turreted Rail Mass Drivers](#) (24 per gun/240 total)
- 30 [Splinter Rotary Flak Guns](#) (90 Defense Weapons)
- 20 [Nimbus Hex Barrel Laser Cannons](#) (120 Defense Weapons)

**Defense Rating:** 18

**Hangar:** 4 Squadrons

12 [Umbra Class Dropships](#)

10 [Cutlass Class Gunships](#)

6 [Apollo Class Interceptors](#)

12 [Lunar Class Starfighters](#)

**Special Features:**

- \* Eject-able Matter/Anti-matter Annihilator Core
- \* Redundant Ray Shielding
- \* Standard Particle Shielding
- \* Standard Ion Shielding
- \* Standard Rad-dampening Shielding
- \* Anti-concussion Field Generator
- \* Socket Guards
- \* Energy Caps
- \* De-ionizers
- \* Cap Drains
- \* Warhead Countermeasures
- \* Tractor Beam Projectors
- \* Standard Star Ship Sensors and Targeting Systems
- \* Standard Star Ship Communications Systems
- \* Standard Star Ship Environmental Systems
- \* AIA 001 Antimatter Cannon

**Maneuverability:** 19

**Speed Rating:** 18

**Hyperdrive Class:** Class 1 Hyperdrive with a Class 12 backup

**Strengths:**

- Speak Softly, and Carry a Giant Cannon:
- Adaptation and Versatility:

**Weaknesses:**

- A very big, very slow, broad side of a barn:
- Just your heavy girl:
- Premature, and slow for round 2:
- Bout as stable as a teenage girl:

**Description:** (Describing your submission's history is **optional**. Please provide a detailed account or link of each special feature that is listed in this submission. All miscellaneous descriptive elements go here, such as Cargo Capacity, Passengers, Consumables, Crew, etc..  
**There is no requirement for amount of words here** so long as you meet the minimum requirements for your special features.)

**Development Thread:**

- Presentation Dev -
- Testing Dev -
- Simulation Combat Dev -
- Full Combat Dev -

**Intent:** Created with the intent of creating the First Star Destroyer to carry the AIA 001 Antimatter Cannon. Past that its just another standard old star destroyer to fill up the Aurora Storefront.

**Who Can Use This:** Aurora Approved Customers.

**Primary Source:** (Please link the source of another writer's submission that you are modifying for your use; only necessary for "Chaos Canon" submissions)
