

## Walking Tours of MBTA Rezoning Areas

Over the summer, the Needham Housing Coalition led three **walking tours of the areas proposed for rezoning** to comply with the MBTA Communities Act. These tours broke the geographic area down to manageable walking tours to provide the opportunity for interested residents **to walk and talk about these areas**, including stopping at existing multifamily properties to **experience the look and feel of various types of development and density**, and discussing sample **parcels and their likelihood for change**.

The first tour included **Garden and Chestnut Streets**. The second walking tour included **Highland Avenue, Rosemary Street, and Hillside Avenue**. The third walking tour included **Needham Heights**.

Dozens of folks were able to join us for the tours, but many who wanted to could not. Happily, we are able to offer videos of the three walks as well as the information packets that accompanied each tour.
