

Directions:

- Using the word given on the left, fill in the other forms of the word in the correct column under the correct heading inside the white empty boxes. If the box is black, no form of the word goes into that box.
- There may be more than one word per box, so follow the number hints at the top of the column. The numbers are listed in order in which they'll appear in the boxes going down the column, and those numbers signify how many words go in that box. Do not repeat the word on the left.
- Go with your gut and raw knowledge, so do not use any type of dictionary.
- Spell correctly.
