Grades K-12

Requesting Teacher – Matt Loshe LMES

Kahoot! empowers educators and captivates learners. Through the creation of a trusted learning space, educational content is delivered by asking meaningful questions in real-time, creating a social, fun and game-like environment.

Kahoot! flips the classroom with a pedagogy based on encouraging a loop from 'learner to leader' within the learning space, which maximises the precious learning time spent in the classroom and empowers learners to lead.

Red Flags

Student responses are stored and are viewable by the teacher

Nickname

Fields Required: Nickname

Student Login Example: Nickname: First Name

Notes: Teachers create an account at getkahoot.com and create a quiz. Students go to kahoot.it and enter the code from the teacher quiz. Students must enter a nickname. This name will then appear in the teacher account with the students results.

We ask for some personal information when you sign up to use Kahoot!

Our servers automatically record information about your use of the service, such as when you log in and you submit answers to quizzes or provide feedback to the instructor. We will associate that information with your account. The instructors will use those data for academic evaluation purposes.

We store and maintain your account information in order to provide the service. Statistical analysis on the students' performance might be conducted to study the effectiveness of the system and increase in-class learning. No identification of users will be revealed at any point to any third party.

We do not sell, rent, trade or otherwise disclose personal and associated account information about our web site users except as described above.

We use administrative, technical, and physical safeguards to protect information in our possession and control against foreseeable hazards. Please note, however, that perfect security does not exist on the Internet.
