

Subject line: Welcome, My friend

Hi, "first name."

Thank you for sticking around to the end of the Sats Income webinar,

I hope it gave you some great insights into what it actually takes to become a consistently profitable trader.

In terms of receiving the right knowledge and the right guidance, From the right people...

As promised, Here is the trading journal you've been eagerly waiting for,

Click the link [here](#).

The power you'll gain from tracking your trades will put you ahead of the everyday retail, **who simply don't.**

You'll be able to identify patterns in your behaviour, overcome them, and develop a winning edge as you go through your journey (which is one of the most crucial aspects of succeeding in this business).

I have also included recorded guides so you can take full advantage of your gift without any doubts or anything technical getting in the way.

But before you get carried away with your brand-new trading journal.

I wanted to take this opportunity to extend a hand, give you a warm welcome and congratulate you.

When you took the webinar, you showed me that you are ambitious.

And more importantly,

You want more out of this life.

You may feel uncomfortable in your current situation, and you want to break free from those shackles and enjoy your life without the constant migraine of doing something that makes you feel miserable, day in and day out.

I completely understand; I know it all too well myself.

When I first started out, I needed all the help I could get, which is why the following emails will be jampacked full of lessons, insights and actionable advice I have learned over the 6 years I have been in the industry.

I hope you get the most out of them and take action without hesitation.

So you can gain significant strides within your career, Create a positive effect on those around you and enjoy every second of doing it.

Now with that said,

Keep an eye out on that inbox.

And We'll be in touch sooner than you think.

All the best

Boppy B

P.S.: I'd like to hear your thoughts on the webinar and any questions you may have on trading.

Reply back and get in touch. I will open it and reply as soon as I get free time.
