Provide an adequate review of literature. The section headings are arranged by Alphabet, bold and 12 pt Baskerville, single spacing. Paragraphs shall be single-spaced with no indent.

C. RESEARCH METHODOLOGY

The Research Methodology section describes in detail how the study was conducted. A complete description of the methods used enables the reader to evaluate the appropriateness of the research methodology.

1. Research Design

State the research approach and research design used in the study. State the research approach and research design used in the study. State the research approach and research design used in the study.

2. Participants of the Study

State the Participants used in the study; sampling techniques, numbers of participants etc.

3. Instruments

Describe what, how, to whom the instruments used in the study. Describe what, how, to whom the instruments used in the study. Describe what, how, to whom the instruments used in the study.

4. Data Analysis Techniques

Describe how the data was analyzed in the study. Describe how the data was analyzed in the study. Describe how the data was analyzed in the study.

D. RESULTS

In the Findings section, summarize the collected data and the analysis performed on those data relevant to the issue that is to follow. The Findings should be clear and concise. It should be written objectively and factually, and without expressing personal opinion. It includes numbers, tables, and figures (e.g., charts and graphs). Number tables and figures consecutively in accordance with their appearance in the text.

Table: 1 An example of a table

An example of a heading	Column A (t)	Column B (T)
Add an entry	1	2
Add an entry	1	2
Add an entry	1	3

E. DISCUSSION

This section should explore the significance of the results of the study. A combined Findings and Discussion section is also appropriate. This section allows you to offer your interpretation and explain the meaning of your results. Emphasize any theoretical or practical consequences of the results.

The Discussion section should be a reasoned and justifiable commentary on the importance of your findings. This section states why the problem is important; what larger issues and what propositions are confirmed or disconfirmed by the extrapolation of these findings to such overarching issues.

F. CONCLUSION

The main conclusions of the study should be presented in a short Conclusions section. Do not repeat earlier sections.

*REFERENCES

1. Please write references in footnote style.
2. Please provide, minimu 20 references from journal article
3. It is higly recommended to use a reference manager, such as: Mendeley or Zotero
