

# ReactNative

## React Native Developer (iOS and Android)

### Job Summary:

We are looking for a highly skilled React Native Developer to join our team. The ideal candidate will have experience in building robust and high-performing mobile applications for both iOS and Android platforms.

### Key Responsibilities:

- Develop and maintain **cross-platform mobile applications using React Native.**
- Build reusable *components and front-end libraries for future use.*
- Integrate native modules and *APIs for iOS and Android.*
- Ensure application performance and scalability across platforms.
- **Collaborate** with designers and backend developers to implement new features.
- **Conduct testing, debugging, and troubleshooting to ensure high-quality releases.**
- **Deploy applications to Apple App Store and Google Play Store.**
- Monitor and address production issues and implement bug fixes.
- Stay updated with the latest trends in mobile technologies and frameworks.
- 

### Requirements:

- Strong proficiency in JavaScript, TypeScript, and React Native, ReactJs.
- Familiarity with state management libraries like Redux
- Experience with RESTful APIs, and third-party integrations.
- Knowledge of app deployment processes for iOS (App Store) and Android (Google Play Store).
- Solid understanding of code versioning tools like Git.
- Familiarity with Agile development methodologies.
- Problem-solving attitude and attention to detail.

# MERN Stack

## **MERN Stack Developer**

### **Job Summary:**

We are seeking an experienced MERN Stack Developer to design, develop, and maintain dynamic web applications. The ideal candidate will have expertise in the MERN (MongoDB, Express.js, React.js, and Node.js) stack and be proficient in deployment processes, performance optimization, and bug fixing.

### **Key Responsibilities:**

- Develop and maintain scalable, responsive web applications using the MERN stack.
- Write clean, modular, and reusable code for both frontend and backend systems.
- Design and implement RESTful APIs and work with third-party services.
- Manage the deployment of applications to cloud platforms like AWS, Heroku, or Azure.
- Collaborate with UI/UX designers, product managers, and QA teams to deliver high-quality features.
- Debug and fix performance issues and bugs across the application.
- Optimize applications for maximum speed and scalability.
- Monitor and maintain application uptime and resolve production issues.
- Stay updated with the latest web development trends and tools.

### **Requirements:**

- Proficiency in MongoDB, Express.js, React.js, NextJS, Tailwind CSS and Node.js.
- Strong knowledge of JavaScript, ES6+, and modern JavaScript libraries.
- Experience with frontend state management tools like Redux and Context API.
- Familiarity with Docker, CI/CD pipelines, and deployment tools.
- Knowledge of cloud services like AWS
