2) Read the following, then answer the questions:-

1) Complete the following dialogue:-

Buying and selling is part of everyday activities. People used to do this long ago. But shopping habits changed a lot. In the past you could deal directly with a person. You could talk to the seller and even ask for advice about the best quality and price. When there was a problem, you could go to the shop and explain it. At that time you could solve any problem at once. Buying and selling today depend on a lot of online activities. First, you must log on the internet and choose price, the quality and time of delivery.

You must provide correct and clear information to get your product. When there is a problem, you must fill in a form describing it clearly. An online assistant will contact you. But it may take a long time to get a reply. The biggest problem is that some companies can't be reached easily because they may be far away from you or you don't know the exact address. To buy online, you must be careful about your personal information. You must keep it secret and deal with trusted online companies.
