

# OCP Networking Project Monthly Meeting Minutes

*Date: 2019-04-08*

## Attendees

- Full Name (Org)
- Jeff Catlin ( Edgecore)
- Jim warner (Univ Cal Santa Cruz)
- Scott Emery (Cumulus)
- Matt Bergeron (Ixia)

## Agenda

- Welcome & News
- OCP Summit Post-mortem
- Status review of submitted designs

## Action items

- 

## Notes/Project Status

- Welcome & News
- OCP Summit Post-mortem
  - Best summit so far. Amount of content was good. Not enough time to get to all the meetings you'd want to go to. Perhaps a 3-day summit would allow for that.
  - Show floor really valuable
  - Recorded videos are really excellent...
    - <https://www.opencompute.org/events/past-summits>
    - Argument to keep more tracks
  - A lot of good content. Show floor continues to be valuable. Adoption stories continue to be valuable.
  - SAI/SONiC workshop before summit: 10 different hack-a-thon projects. Allowed for extra time for SAI/SONiC.
  - SAI/SONiC meeting room was far from the HW & SW rooms, and hard to find.
  - Breaking up the engineering workshop with keynotes was good.
- Status review of specs/designs shared at Summit and to be posted/followed-up-on
  - Next IC meeting: May 2
  - Facebook/Minipack - in progress, should be up later this week

- Cambridge Industries - tried to get SONIC support put into the spec, maybe in another week
- Stordis -
- Arista
- Others?
  - <https://www.opencompute.org/wiki/Networking/SpecsAndDesigns#Shared hardware specifications still under review>
- Recognition of software work/contributions
  - Raising awareness across IC of the work by the companies
  - Credit
- CBW group
  - How to get more momentum
- Project status - Postponed until next month
  - ONIE (Alex Doyle)
    -
  - SAI (Xin) :
    -
  - SONIC (Xin):
    -
  - ONL (Steven Noble/Jeffrey Townsend)
    -
  - OOM (Don Bollinger / Steve Joiner)
    -
  - CBW (Rajat):
    -
