

The Constitution

DISCLAIMER: If anyone reads this just so you're not confused this is the fictional constitution of the fictional empire The New World Order and should not be taken too seriously in real life, it's just for fun in video games and real life. Note: throughout this document we will treat this as a serious nation and as if it actually exists. The Supreme Leader And King Jonah Lipinoga is not fictitious, he is in fact a real person. This document does not have humorous or satirical intent. Below is our real life flag and then below that is our video game flag.

PREAMBLE:

Our Glorious empire The New World Order or TNWO for short, is a democratic absolute monarchic dictatorship. Our forever Supreme Leader and King Is Jonah Lipinoga (Gratitude2r). Our main state party is The Progressive Lipinoga Nationalist Conservative Party or the PLNCP for short, and is also sponsored and was founded by The Supreme Leader and King. Our independence day is July 4th 2021.

We are democratic since we have three branches of government, hold elections for all lower government positions, and elections for most decisions. But, we are also an absolute dictatorship monarchy because our supreme leader and king is forever in power and has the final say on anything in our empire.

We take great inspiration from The United States Of America, The Pirate Republic, and The Templar Knights. We actually used to be under the name of The Pirate Republic, then we later switched to Germania, then to America, then to The Order, and then lastly of course, The New World Order. Our official language is English.

Our favorite things to do are war, conducting votes, collecting data, building infrastructure, recruiting citizens, expanding our culture, art, music, debating, research, claiming glory, helping everyone we can especially those in need, ensuring everyone's safety and security, and diplomacy.

The reason The Supreme Leader And King has the ultimate authority is to ensure that no one can abuse their power and make sure that no one horrible comes to power, he is here to protect and serve you.

Again, I'd like to reiterate that our government is special as one man, Jonah Lipinoga, for his entire life has all the power and then when he dies or decides that he wants to retire, the government reverts to a complete democracy with privileges for that man's family such as no term limits and government protection (such as secret service or bodyguards).

Our national anthem is "Solidarity Forever".

Here are the lyrics:

When the union's inspiration through the workers' blood shall run,
There can be no power greater anywhere beneath the sun;
Yet what force on earth is weaker than the feeble strength of one,
But the union makes us strong.

Chorus:

Solidarity forever,

Solidarity forever,

Solidarity forever,
For the union makes us strong.

Is there aught we hold in common with the greedy parasite,
Who would lash us into serfdom and would crush us with his might?
Is there anything left to us but to organize and fight?
For the union makes us strong.

Chorus

It is we who plowed the prairies; built the cities where they trade;
Dug the mines and built the workshops, endless miles of railroad laid;
Now we stand outcast and starving midst the wonders we have made;
But the union makes us strong.

Chorus

All the world that's owned by idle drones is ours and ours alone.
We have laid the wide foundations; built it skyward stone by stone.
It is ours, not to slave in, but to master and to own.
While the union makes us strong.

Chorus

They have taken untold millions that they never toiled to earn,
But without our brain and muscle not a single wheel can turn.
We can break their haughty power, gain our freedom when we learn
That the union makes us strong.

Chorus

In our hands is placed a power greater than their hoarded gold,
Greater than the might of armies, magnified a thousand-fold.
We can bring to birth a new world from the ashes of the old
For the union makes us strong.

Laws And How Things Are Run:

Current Amendments: 12

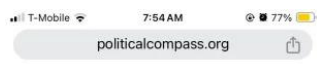

1st Amendment: The Oath And The Supreme Leader And King

The Oath

All citizens must take an oath and swear allegiance to the Supreme Leader and King as well as acknowledge that he is above all and show great honor and respect towards him. Citizens must also acknowledge The Supreme Leader and King will be in power forever and have the final say in everything. Citizens should also acknowledge and respect that The Supreme Leader and King started this empire on his own and poured his blood sweat and tears into it, he single handedly built almost everything you see here on his own. As you can imagine he may be a bit grouchy sometimes because he's burnt out from his hard work, we just ask that you acknowledge it and keep it in mind when around him.

About Him

The full name of the Supreme Leader And King is Jonah Preston Lipinoga (Yes I am a real person and this is in fact my full name, all these facts are true), he was born in Williamsville, New York, of The United States Of America on the 12th of May 2009. His IQ is 145 and he has ADHD as well as slightly poor vision. He is a non-denominational Christian, a 4th generation immigrant in America, and very empathetic towards others.

2nd Amendment: This amendment will be split into sections as it details how our government is run, also no position here has term limits unless specifically stated. The government is split into three branches. The Supreme Leader and King is above all and the consequences of the law don't affect him, as he is the law, and can change it at will, but he is a fair leader.

An Illustration Of Our Hierarchy And Flow Of Power:

The Executive Branch:

The Royal Family:

The royal family has no actual power but should be treated with respect as they're related to The Supreme Leader and King.

The royal family is anyone who is (They must have both) both blood related and has the last name of the Supreme Leader and King. The only benefit of being in the royal family is that after the Supreme Leader and Kings passing when the country converts to democratically elected presidents, members of the royal family have special benefits that include not having term limits unlike others who get a two term limit, each term for them is five years no matter the position.

The royal family is automatically involved in The Progressive Lipinoga Nationalist Conservative Party.

National Branch:

The Supreme Leader and King is in charge of everything and has power over everything, he has a council which are in charge of different aspects of the country, all council members are hand picked by him and when they join the council they must also join the military.

There are currently 13 positions
The current council positions are:

Executive Supreme Queen (Co-rules with The Supreme Leader and King, but he is above her)

Executive Vice Commander (Second in charge)

Royal Advisor (Third in charge but also in charge of advising the entire council)

Executive General (In charge of the entire military)

Executive Officer of Customs (In charge of immigration, citizenship, visitors, and border security)

Executive Intelligence Officer (In charge of all spycraft and secret projects)

Executive Scientist (In charge of all research and science)

Executive Architect (In charge of all construction and structures)

Executive of Foreign Relations (In charge of all foreign relations and embassies)

Executive Chief of Law (In charge of enforcing all law, prisons, jails, etc.)

Executive Judicial Officer (In charge of the courts as well as finding loopholes in the law and suggesting new laws)

Propaganda Minister (In charge of making propaganda and collecting data throughout the empire)

Executive Economic Officer (In charge of resources, the economy, and government budget)

State Branch:

Governors are elected officials who serve five year terms and are in charge of running a state.

City And Town Branch:

Mayors are elected officials who serve three year terms and are in charge of running a city or town.

The Judicial Branch:

The Supreme Court:

The supreme court consists of ten judges which are voted for and also required to pass an inspection by The Supreme Leader and King. Each supreme court judge has a five year term with no term limits.

The Supreme Court handles high profile cases and also reviews any new laws that would be passed and then hands their assessment of the new law to The Supreme Leader and King- (unless the Supreme Court vetoes the proposed law) -where he then presents the law to his council who will then help him determine if he should approve the law or not. Not only does the supreme court assess each new law but can also suggest revisions to it as well. The supreme court can also assess already existing laws and suggest revisions to them as well.

The Normal Court:

Our court of law usually consists of one judge, commonly 12 jurors or in case of an issue 6 jurors, one prosecutor, and one defense attorney.

There will always be trial by jury (unless under special circumstances) and the defendant will be told what the trial is for.

All judges including supreme court judges must be a citizen

Non-Citizens can't sue even if they're visiting.

In most cases the defendant can't be their own defense attorney but it is possible under the discretion of the judge.

At least half the jury must be New World Order citizens.

The decision is made usually when either guilty or not guilty has at least one more vote than the other.

If the jury is tied then the judge will have the final vote but can also decide to have a retrial. There is no time limit on any trial.

If the trial has been tampered with by any means then the Tamperer will be tried for tampering with the trial and the trial they tampered with will be given a retrial, if found guilty they will either pay a fine or serve three days in prison.

Neither the defendant or plaintiff will talk to any of the jurors, witnesses, or judge regarding the trial before the verdict is made and if they do it is considered tampering with the trial.

For safety purposes each juror's decision will be anonymous (even to each other) and only the judge, prosecutor, and defense attorney can know which juror voted guilty or not-guilty.

You can sue for defamation and if the person is found guilty they will receive a fine and three days in prison.

You can apply for restraining orders at any time.

The Legislative Branch:

The legislative branch consists of representatives and senators. Each representative has a three year term and each senator also has a three year term. There are no term limits and both positions are voted for.

Senators are elected representatives of their state. There can only be one senator per state.

Representatives are elected representatives of their group. There can only be one senator per group and each group must have a certain number of people to have a representative.

Both the senators and representatives collaborate to discuss new ideas for new laws, address issues they're group or state is experiencing, and also vote on whether they should pass the law and give it to the supreme court who will then give it to The Supreme Leader and King.

3rd Amendment: This amendment details how immigration and visiting works.

If you're not a citizen or visitor then you don't have any of our rights but our laws will still affect you if you commit them on our citizens or on our territory. You must go through customs in order to enter or immigrate to our empire. First you'll be brought in to be asked questions which must include the following: Why are you coming to The New World Order? (Business, Pleasure, Visiting, Immigrating, or other) Have you committed any crimes in the past? (if yes then they ask: How many and what were they?) Do you know anyone in The New World Order? (If yes they'll ask that person to confirm and ask that person about you) Where in The New World Order are you traveling to?

Customs Officers may also ask any other questions on top of the required questions. When all questioning is done the customs officer will give them a copy of our constitution and then leave to determine if they can enter or not.

If they immigrate and are granted entry- (they must swear their allegiance to The New World Order and also say that the Supreme Leader and king is above all, if they refuse then they are not allowed in) -they get to keep the copy of the constitution, are given starter tools or a kit, and are given a parcel of land in the empire approximately 25 x 25 blocks in size minimum.

If they're coming in for a reason other than immigration and are granted entry then they get to keep the copy of the constitution for the duration of their stay, and also a document proving they're allowed in which will be returned when they leave.

4th Amendment: Citizens of The New World Order can't commit crimes on one another, they also can't commit crimes on The New World Order, and allies of The New World Order.

Citizens are allowed and encouraged to rob, steal, kill, burn, grief, plunder, and commit whatever horrendous crimes their heart desires on whoever's not a citizen of our empire or our allies.

However, before you commit the crime on someone fitting the description above, you must ask them if they'd like to join us, if they say yes then you can't commit a crime on them, but if they say no then you can do whatever you want to them.

You will receive a reward of some kind for every person successfully recruited.

You can't commit crimes on a non-citizen within the empire if they have proper papers and are here legally.

If a trespasser was in fact not trespassing yet still killed then the 6th amendment will apply to the killer.

Government officials such as the council and tax collectors are allowed to bypass this law if need be, but if they are found to be abusing this law they will be put into consideration of firing as well given a fine of 10 of any rare or a half stack of common minerals which cant be an extremely rare mineral.

If you attempt to escape the prison you will be given an extra three days each time. If you successfully escape another week will be added each time. The same rules apply to any accomplices.

Our prison system is unique in that there are usually three stages, unless the sentence isn't long enough, and if that's the case then they'll just be in the third stage.

The first stage takes up a quarter of their sentence and they're sent to a prison specialized in punishment.

The second stage takes up another quarter of their sentence and they're transferred from the maximum punishment prison to one where they'll do nothing but labor for the country.

The third stage takes up the most amount of their sentence and is also where they'll be for the remainder of it. The third stage is a highly specialized reform prison where they are treated very well and have plenty of programs that help them prepare and heal for integration back into society.

7th Amendment: This section is about rights and freedoms. There are currently 12 rights.

Right 1: The Right Of The Accused

If you are accused of a crime you are interrogated and put on trial where if found guilty the punishments will proceed. If you are banned from the Empire or are in prison you may request a trial to be unbanned or reduce your prison sentence.

Right 2: The Right To Justice

Every citizen, no matter what, has the right to a trial.

Right 3: The Right Of Defense

Every citizen has the right to bear arms and defend themselves. Every citizen has the right to use and purchase weapons of any kind, even full on tanks.

To purchase firearms, bows, or armed vehicles you must be eighteen or older as well as pass a background check.

To purchase knives or bladed weapons all you have to do is be sixteen and present some form of id.

Yes everyone who purchases a weapon will be documented, also for firearms you will be required to take a month long course and pass an exam to get a license that expires every thirty years.

Right 4: Freedom Of Religion

Even though The New World Order is a Christian state, all of its citizens still have freedom of religion and can practice any religion they like and express their religion anywhere.

The New World Order also is strongly for separation of church and state.

Right 5: Equal Rights

Every citizen has rights no matter who they are, they're background, religion, race, gender, sexual orientation, disabilities, or anything else I might have missed. The people who might lose rights are ones that commit crimes and are criminals but it's unlikely it will be permanent.

Right 6: Freedom Of Speech And The Press

Every citizen has the right to speak any way they want wherever they want.

Every citizen has the right to report the news any way they want.

Right 7: Choice

Every citizen has the right to vote. Every citizen must be eighteen to vote and must present their government issued id to do so.

Election days will last about three days and public transportation will be free on said days, employers are also required to give employees those days off if the employee asks to be off those days to vote.

Votes will be counted by hand and a mix of police and average citizens (will be pulled from a lottery) will oversee the counting.

Only citizens can vote, and the rule is one vote per person.

Right 8: Freedom Of Love

Every citizen has the right to love whoever they want in any way they want. Citizens can marry whoever they want. Marriage of minors is illegal. Forced and arranged marriages are illegal, no one should be forced to marry someone they don't want.

Right 9: Workers Rights

Every worker has the right to receive a basic (at least stone) tool set for their job which if they break their boss must replace it. Workers cannot take these tools home though.

Every worker has the right to unionize.

Every worker has the right to at least a month's worth of vacation time a year.

Citizens have the right of paid leave when they are pregnant. Pregnant leave can last for at least a year.

Right 10: Freedom Of Body

Every citizen has the right to abortion, although after five months into the pregnancy abortion of the baby becomes illegal. If it's past five months, you can either give the baby once it's born either to someone you know or give it to the state.

It is illegal for minors to receive transition pills or transition surgery, once they turn eighteen they can. We're not transphobic, we just think that it's too young to make decisions like that, especially when the effects are irreversible. When citizens turn eighteen, then they can as they are more responsible and know what they want for themselves.

Citizens can pierce any part of their body at any age.

Citizens can get tattoos but only after they turn eighteen and are no longer a minor.

Right 11: Homeland Citizenship

Anyone born in the territory of The New World Order is automatically a citizen.

If a person has T.N.W.O. ancestry but was born outside of our territory then they can come back and become a citizen right away without having to go through immigration.

Right 12: Education

Everyone has the right to free public education, and the ability to pick the public school they go to.

8th Amendment: This section is split into two and details how the economy works and also details about taxes. Our economy is based on capitalism, except ours is Lipinoga Capitalism. .

Economy:

Our economy consists of gold and our currency is called Bar and Doubloons. Yes we are backed by the gold standard. The gold is kept safe while these very thin black colored cloth slips, called Bar, and these brass coins, called Lipas, are used to represent the gold. The Lipas have the denominations one, five, ten, twenty five. The bar has the denominations one, five, ten, twenty, fifty, and one hundred. To put this in perspective let's say you have twenty seven lipas and twelve bars, this is what that would look like: \$12.27 We use imperial measurement.

Taxes:

Taxes are crucial to our government and are usually only applied to those who own land. Yes if you live with someone you'll share the same mail box and tax box so living with them would subsequently reduce your tax, or you could also just not own land or join the military and live in a military structure.

Taxes are adjusted to the land you own, mainly taxes are redstone, gold, quartz, and food. Taxes are a portion of the resources that you collect every time you collect them. We will also accept any broken tools and armor.

You must place your taxes in the tax collection box on your property.

If you fill up your entire tax box before a tax collector collects it, then you will receive a tax return in your mailbox. You can only receive a tax return once a week.

If we think you're holding out on your taxes then the tax collector has the right to search your property and collect said taxes.

If you fail to provide taxes at the end of the week then the tax collector will take something of equal value.

You can request a tax break in which you state that you will be gone for a certain period of time in which you will not be able to pay your taxes. Obviously you won't pay any taxes during your tax break and the tax break you request can be as long as you want, but the longer time you request the more likely it'll get denied. You will have to present a valid reason for your tax break request.

9th Amendment:

This amendment will explain how public school systems are run. Each School year starts on the first weekday of September and ends on the last weekday of June. Students have weekends off of school as well as federal holidays. Public schooling is free for everyone as it's paid for by taxes, although you do have to pay for college. Learning English is mandatory and required for all students.

Schooling starts when children are going into their fifth year of life where they are sent to pre-school where they are acclimated and prepared for elementary school.

After pre-school, children are sent to elementary school for grades kindergarten-4th.

After elementary school, children are sent to middle school for grades 5th-8th.

After middle school, the youth are then sent to high school for grades 9th-12th.

Once the youth graduate high school they go through one year of specialized training to prepare them for the world, which is more described in law 22.

10th Amendment:

This amendment explains how our adoption services and child protective services are handled.

In order to adopt you must be a citizen, pass a background check, and present your government id.

Orphanages will house children who are waiting to be adopted, these orphanages will be fitted with bedrooms that can house up to two children each, a kitchen, a garden for crops and flowers, a sizable living room, one full bathroom per five people, a large yard, and a school room where they can receive help with schoolwork. There will be two headmasters, also called Present parents, will be in charge of each orphanage and treat the orphans like their own children and provide nurturing and support.

To delve into right ten, when the mom doesn't want her child and doesn't find anyone to give them to, and opts to give them to the state, the child will be sent to a special place where they will be raised by the state itself. In these special buildings they will be closely similar to normal orphanages except that the children at these places will be taught and raised loyally to the state as hopefully one day they will become government employees or do other stupendous accomplishments.

11th Amendment: Current federal holidays: 2

This amendment details federal holidays.

Independence day: July Fourth

We were founded on this day and it is a heavily patriotic and celebrated day.

Christmas: December 24th-25th

This is the day that Jesus Christ was born as well as the time of joy, forgiveness, giving, gratitude, and helping others!

12th Amendment:

This amendment details environmental protections and regulations.

Dumping waste or trash in the streets, rivers, oceans, and other natural landscapes is illegal and will result in a fine and 5 years in prison.

For every tree cut down, three must be planted.

Every household and business must have two waste bins, one for garbage and one for recycling.

The New World Order supports nuclear energy and views it as the cleanest and most efficient form of energy production.
