Textures

[K-202 : THE GROUNDY MOD](#)

[K-505 : THE TERRAIN MOD](#)

[K-707 : THE NATURE MOD](#)

[Utopia Sims Retexture all the base game food](#)

Tool Programs & websites

[Sims 4 Studio](#)

[Sims 4 Mod Manager](#)

[Sims 4 Tray Importer](#)

[Mod Assistant](#)

[TS4AlphaConverter \(LRLE textures](#)

(All of these programs are super helpful for fixing your broken or organizing CC)

[Mysimslegacyhub](#)

[thesimstree](#)

(Not mods, they are websites to help create sim family trees)

[Relative Chart](#)

(Not a mod, it's a chart to help people figure out how family trees work, if you have a big one)

[School-uniforms](#)

(My Pinterest for all CC school uniforms I have found and liked)

[Curseforge-Sims 4 All Mods](#)

(The main mod download hub is the safest place to download mods; not everything is there, but most of the popular mods are there.)

[MC Command Discord](#)

The same deal with the broken mod list, same thing except it's a Discord channel, so if your game is broken, the lovely team over there will help you, and they will tell you what mods are broken.

[Broken and Updated Mods and CC](#)

This broken mod list is very important, it will tell you anytime a mod is broken, updated, or discontinued. Make sure to use this after every patch so you do not break your game.

[Scarletsrealm Recent Changes/Updates](#)

[SCARLET'S REALM The Mod List](#)

Same as above. This broken mod list is very important, it will tell you anytime a mod is broken, updated, or discontinued. Make sure to use this after every patch so you do not break your Game
