**15** started there is and I didn't get to write this on the chalkboard for tonight but there is something that happened today a video that is going viral it's literally breaking the internet it is truly viral viral viral viral and it's on Tik Tok and every one of your children are watching it and being persuaded by what they're seeing I I did a video earlier I'm going to play it real quick it's about five minutes you need to share that clip you can find it on my YouTube channel my Rumble Channel my Facebook you need to go share this why because without knowledge we become defenseless and you need

**16** the knowledge to be able to tell your children your grand they're going to come and ask you they're going to talk about this h a letter to America from Osama Bin Laden he wrote this letter uh after the attack on 911 he wrote this letter okay your children are being mesmerized by this letter they need Professor Toto in their life watch quickly and I'll be right back so unless you've

been living under a rock today you're not aware of a viral video that is taking over Tik Tock today literally it's concerning Osama Bin Laden and a letter that he wrote To America giving us the good reason why he

**17** attacked us on 911 you wouldn't think that it would be talked about today but it is everywhere and so I thought that I would go read this letter that is causing all of these young people our Our Generation that's going to be leading our nation very soon it's giving them literally feelings of euphoria I'll give you an example of what it looks like this morning I read letter to America which is Osama Bin Laden's letter to America explaining why he attacked Americans and I am ashamed to say that I not only have never read this letter but I didn't even know this letter existed it's wild and

**18** everyone should read it if you haven't read it yet read it okay so if you and I'm showing the video video right here if you'll look at them look at all the young people just one after the other they're in awe they are enamored they are shocked they are surprised they are blown away why didn't anybody tell them that America was the bad guys why did we lie to them and tell them that Osama Bin Laden was the bad guy well so I thought let me go read this letter that is the Talk of the Town and I did and I found out quickly how that the enemy depends on ignorance and unfortunately we have a

**19** generation that is ignorant of their history so while I'm reading the letter because I wanted to learn something right and so as I'm reading the letter I'm going to read just one part to you it's the first page of this letter that everybody is talking about and this letter if it was not built on a lie I would have read the rest of it but the very beginning of the letter is a lie you need to know why it's a lie so that when your children come running to the dinner table tonight talking about what they heard on Tik Tock you the responsible parent grandparent Guardian can tell them the truth so

**20** as we begin to read this letter the first thing we find is of course o Osama gives praise to Allah and and all the wonderful prophets and and and what have you and what not at the beginning of the letter but when he starts to explain why he attacked America I I want you to look real close at what he says it's actually um in paragraph a i it says you attacked us in Palestine Palestine which has sunk under military occupation for more than 80 years the British handed over Palestine with your help America and your support to the Jews who have occupied it for more than 50 years now overflowing

**21** with oppression tyranny crimes killing expulsion the creation and the continuation of the state of Israel is one of the greatest crimes and you are a leader of this crime at that moment I realized that if this part was a lie everything else was a lie in this letter listen to me carefully if you really care about The Truth Listen to me when he says that the creation of the state of Israel was a crime he's a fool and you are for believing him let me explain the way things work in the real world when he says that the British gave the land to the Jewish people what he forgot to tell you was

**22** because his people were such cowards the Ottoman Empire was such cowards that they surrendered Jerusalem to the British Empire now I did an entire video on on this that you can go watch and it's entitled from the river to the sea but listen to me the Palestinian people cowardly surrendered Jerusalem and all of the land thereof Israel to the British Empire they were conquered in War I have the letter the mayor of Jerusalem wrote to the British Empire as a coward telling them we're outgunned we surrender we give it to you now Osama just said that we stole the land Osama just said in that letter

**23** that it was a crime that created the state of Israel that's a lie that's a lie it was not a crime it was a war that was won legitimately and according to the international rules of war the Great British Empire decimated the enemy which was osama's people we won that war fair and

square and it was surrender to the British Empire at which time the British Empire can do with it whatsoever they desire there's an old saying to the victor goes the spoil the British Empire was given a mandate by the League of Nations to do with whatever they wanted to do with that defeated territory and now

**24** these coward criminals want to come back after the fact because they lost a war they lose every war because they cannot win Wars they lost The Six Day War they lost the yam kapoor War they're about to lose they're Los users they fight in from the back like cowards so for all of my Tik Tock friends that have fallen for this letter of lies walk in the light it's much more beautiful in the light thanks for watching why do I take time to do these videos I'm a busy man I Pastor a large Nationwide Church why did I stop today and make that video because when truth no longer means everything then it no

**25** longer means anything and you and I have an obligation to educate ourselves for our children's sake because this when I tell you it's viral we have American young people that are crying on Tik Tok apologizing to all all of the uh 911 attackers we deserved it we are so sorry we deserved what happened to us thank you for bringing us God's judgment thank ladies and gentlemen we are living in the age of the delusion and only a few are walking in the light and the ones that are walking in the light are hated by the ones walking in the darkness so I encourage you tonight to equip your mind with an

**26** answer be ready to give an answer okay New York great Victory great victory for our president judge ignoramus ingaran you know the one that likes to show his nipples judge ignoramus ignoran IGN uh ingaran the ones that likes to show off as little muscles with his blood vessels that one that hates our president put a gag order on him because the president was telling the truth about the judge's clerk that gag order as of today was deemed unconstitutional it has been lifted and our president is free to say whatever he wants to say about that ignoran ignoramus he is he's free to say whatever he

**27** wants to say that judge overruled why because we always win come on you know in the end truth may be a long time coming but when it comes it don't take long so put your nipples up judge ingaran Inus you were uh you were fired if you will at least your gag order was another great victory in the State of Florida you're right Diana Coral I did tell you so I told you it would never stand Florida remember they were supposed to start the trial of president Trump in May of 2024 judge e Cannon has moved the date and she's open to moving it again and so the left are going crazy here's what the left

**28** said today the left said uh I'm very concerned right now because there's no way this now goes to trial before the 20 24 election so now if that one doesn't go to trial folks listen to me and I I want to sing I told you so so bad but I'm not going to trying to constrain my voice I got to preach all weekend I told you all of this is to create a great Resurrection for Donald Trump by the time these go to trial he will be president and then his Department of Justice will simply wave their hand and rid our president of this great leech this great burden that has been put on him and it won't happen

**29** none too soon ladies and gentlemen it cannot happen none too soon because our nation is in desperate need of a leader our nation is begging for a leader because never in my lifetime did I dream that I would see what I saw yesterday on the streets of America I would behold not the red white and blue no just the red [Music] [Music] in there was a time you would have been afraid to wave the Communist flag in the United States of America but not only that they're playing the national anthem of Communism on the streets of America I just never dreamed I would live to see this day ladies and

**30** gentlemen we must have the return of Donald Trump and we will that moment is coming but no uh Joe Biden uh and president Z are are in love with one another president Z is the most

powerful man in America the only man that could have cleaned up homelessness in San Francisco the only man in the world he got a Heroes welcome communist Flags communist anthems raging and don't be surprised because Joe Biden is a traitor he is unfreezing remember that 10 billion to Iran that we talked about a few weeks ago and and they come out and said we're going to freeze it don't worry well now they're

**31** unfreezing it he's a traitor to his people he is a traitor to his Nation so now they're unfreezing the 10 billion he just loves giving America away we know each other for long time our meetings have always been candid straightforward and useful I value our conversation because I think it's Paramount that you and I understand each other clearly leader to leader with no misconceptions or miscommunication we have to ensure that competition does not Veer into conflict and we also have to manage it responsibly walking thanks guys we're walking out we're walking out start walking out so much

**32** everyone's got out everyone's got to head out heading out this way pick it up heading out that way guys pick it up heading out that way pick it up and thank you so much everyone's heading out this way thank you so much everyone's moving out [Music] okay guys we are moving we are moving we are moving guys we are moving we moving moving got to go guys we're going way how did it go Mr President everybody's up moving we moving thank thank you see you [Music] tomorrow president app today would you still refer to president she they look like they were in love to me it's is just a beautiful thing oh

**33** wow I expected Frank Sinatra to start singing any moment I did it my way wow wow wow wow and I just love how he just tells him you know he speaks so comfortably and and the this man is a dictator this man is a communist dictator I diabolically diametrically opposed to the American way of life so there you go um you know I I've always always told you who's in charge of this nation I've always said it's not Biden I've always told you it was Barack Obama I've taught you about Barack intently over and over for years and I was so shocked so shocked when I heard another man sound almost just like

**34** me word for word it blew my mind I could have sworn I was listening to the conservative College when I heard this interview just yesterday I was like wow that sounds like Professor Toto listen carefully coming through Iran and Obama wants to he doesn't want to talk about it he doesn't want to mention he doesn't even mention them in his statements it's all coming through Iran well you mean President Biden so uh uh but right now I also mean Obama what do you mean I mean Obama and Biden but Obama is Biden's boss in case you didn't really know that you believe you believe President Obama opinion

**35** the I don't think I don't think Biden knows what's happening to be honest with you I think that Obama is calling these shots and he's always felt this way about Iran there's no question about that now I think Obama and Obama's people certainly are calling the shots not Biden so so you don't have this just your gut tells you uh but you don't have any proof that President Obama's calling the shots no it's my gut but my gut's been right about everything so good they have an expression out there Trump's been right about everything you take a look at go down the list we've been right about

**36** everything so you know how the Middle East is right about all of the people pouring into our country right about Ukraine we're right about everything so what do we do what do we do about getting our people back a lot of a lot of people a lot of people from Obama in the administration that Circle the Oval Office desk the Resolute desk and uh I told you so oh I Told You So and now president Trump says the exact same thing I love Brian kilme thought Trump made a mistake by calling the President Obama he said you mean Biden he said no I mean Obama so anyway boy and you know and we've taught you

**37** about Iran we told you everything's going through Iran blah blah blah blah blah so you

know folks listen You'll Find the truth here at the conservative College where we keep it real we keep it right and we keep it tight sort of like a few months ago when I posted this on my Facebook timeline watch the date and watch The Words April the 3 keep your eye on Joe Mansion April the 3 and then on July the 17th this will be the year of a formidable third-party candidate for the first time since Abraham Lincoln and look what I put Mansion chaining now um today or yesterday here's what the headline

**38** says are you ready the West Virginia senator says he's absolutely considering running for president in 2024 because the country is currently on a wrong course and need someone that can cause the country to meet in the middle folks this is a football game and mansion's about to go up center field okay I've warned you of this I've told you of this here it is he will be announcing shortly that he is running probably with Liz Cheney and they're going to go up the middle and uh and and and now with Jill Stein running to take votes away from Joe Biden RFK running taking votes away from Trump

**39** and Biden it's just it only gets better from here my friends that it just gets better from here speaking of better from here how many of you know about those ghost buses look at the FBI director in the hot seat about these ghost buses on January the 6th said he was communicating with his FBI Handler while people were entering the US capital can you confirm that the FBI had that sort of Engagement with your own agents embedded with into the crowd on January 6th if you are asking whether the violence at the Capal on January 6 was part of some operation orchestrated by FBI s ources Andor agents

**40** the answer is emphatically no not violence orchestrated by FBI sources or agents are you familiar with with you know what a ghost vehicle is director director of the FBI certainly should you know what a ghost bus is a ghost bus ghost bus I'm not sure I've used that term before okay it's pretty common in in law enforcement it's a vehicle that's that's used for secret purposes it's painted over these two buses in the middle here they were the first to arrive at Union Station on January 6 0500 I have all this evidence I'm showing you a tip of this Iceberg Mr chairman these two buses painted

**41** completely white point of order point of order sure just run over the time I understand but you'll recall that Miss Jackson Lee's been allowed to go two minutes before I've been very fair in letting people finish their questioning through out my tenure as chairman and I'll continue to be fair on that regard but I will make a note to the members if you could stay as close within your time as possible we have a lot of people that want to ask these gentleman questions so with that the gentleman yields but uh your your point I've been very fair in this Mr ivy with everybody on this side of the

**42** aisle just as I don't think I accuse you of being unfair Mr chairman you're making a point okay thank you uh I now recognize now recognize Mr may I close this this statement Mr no I think I think your time is expired m i note that that other members AC cross the aisle have been been granted time and I object well to my to my question being being closed this is a very significant hearing Mr chairman and these buses are nefarious in nature and were filled with FBI informants dressed as Trump supporters deployed unto our capital on January 6 your day is coming Point Mr uh Higgins I now re your

**43** day is coming Mr Ray that sounded quite prophetic to me now I'm not I don't have time to play the other videos connected that he showed these ghost buses being escorted by police into uh the capitol ghost buses completely uh unknown unregistered un unaccounted for and what piles out of these ghost buses is people dressed in Maga gear do you remember the video I showed you a few weeks ago where they were attacking the capital while Trump was still speaking and I told you this is not Maga people and they're busting the windows out while you had the real Maga people saying don't bust the windows

**44** out but you see they had to make sure that these Senators that were going to rise that day and reveal their evidence were not allowed to speak and that's EX exactly what happened hey you got to give them credit they won that battle but they will not win the war and it is a war they are out to get Donald John Trump whatever it takes yeah they started with the 14th Amendment remember of course I told you so I told you that would I everybody was scared to death what about the I said don't worry about it it'll never work I did a whole video why it wouldn't work if you want to watch it go to FH

**45** tv.tv and type in 14th Amendment and educate yourself but now ladies and gentlemen no we're moving on now we're leaving the 14th amendment in the dust we've got another amendment that we're going to use oh yeah not the 14th now we're going to the 25th Amendment just watch 25th amendment piece stands out to me as your reporting would suggest is Donald Trump fully there mentally but what I tell you is the people that have raised questions about whether or not he is fully there me mentally uh have been the people closest to him now Donald Trump is not even the president guys well he is we know

**46** better but officially in their eyes he's not even the president why are we talking about the 25th amendment that only applies to a sitting president I mean how many amendments do are we going to try to flip through but now now Trump is losing his mind but not not President Joe Obama oh Biden oh no none of us can comprehend the weight of the presidency every hour of every day you couldn't do it I couldn't do it someone 45 years of age couldn't do what he does every day but he does it oh that's right so Biden is in his prime Trump losing his mind 25th amendment we live in a backwards World folks

**47** we live in a backwards World backwards so backwards that I could not help but notice this article I'm just going to read you the headline I must move on but I believe it's in the state of Connecticut a Connecticut town is now marking the beginning of December with the launch of an after school club called the Satan Club sponsored by the satanic temple so now children in public schools will be going to Satan's school after their classes are over Satan School you heard me right real quickly I'm running out of time I'm so very sorry and I want to get to my monologue tonight before I do I want to

**48** talk about one more thing Abraham an abortion I I just want to touch on abortion for four minutes if I can Abraham Lincoln did something that we need to pay attention to it applies to the war on abortion if there's anything we learned in Ohio and other states where abortions have Advocates have won great victories the first is that what Abraham Lincoln understood was public sentiment is everything in a republic you have to win the argument before you can change the law you can't win the argument unless you know how to make the argument the second thing we learned is that a majority of

**49** Americans they do want limits on abortion but they also do not want to eliminate abortion so what happens when we come to them with our messaging like most of these candidates Ronda santis and others when we come saying we want to ban abortion we totally just lost everyone that wants limits and they don't want to ban which is the majority of Americans we must get our messaging right and I explained to you a few weeks ago about Abraham how he told his wife to say she was his sister why they needed to sell a story in order to survive to fight another day most Americans do not want abortion on

**50** demand they don't I know I talk to them every day but they also do not want an outright ban especially with no exceptions now what we need to understand is that Abraham Lincoln left us an example of how to win this war and we can win it but we got to watch what we say and how we say it Abraham Lincoln thought that slavery was evil just like you and I think that abortion is evil and it is slavery was evil he thought it was wrong he wished there was a way he could eradicate slavery however he never tried to bank ban slavery okay if he would have come out

trying to ban slavery he would have been

**51** defeated but instead he fought unflinchingly against the extension of slavery into the western states and territories what does that mean it means he fought a battle that he knew he could win not a battle that he was sure to lose I need everybody to please listen to me Abraham Lincoln knew if he wanted to end slavery don't say it put limits on it he wanted to limit slavery to where it couldn't come any further than the South could not expand any further and yet we know how that battle turned out don't we we know eventually they overruled it we must allow Donald Trump to be our Abraham Lincoln

**52** yes it's evil but if you think you're gonna you're gonna fight a battle that you're sure to lose you are sure to lose I'm coming right back with tonight's monologue democracy is destroying America I'll be right back the volatility of the US dollar is a harsh reality we've seen the stock market come across ramped losses even over the past 20 years there's a need for an alternate Financial strategy how about gold or silver welcome to God's money with the PSI security platform you can build your wealth and secure your future with precious metals that withstand the test of time gold and silver are

**53** the secrets the wealthy have used to accumulate and protect their wealth for decades God's money works with a team of world-class experts to deliver rare highquality unique precious medals at impressive prices don't have the money to invest in silver and gold no problem join our coin of the month program with this amazing program we will send you a little silver on a monthly basis consider this opportunity before it's too late act now go to [www.godsmack.com](http://www.godsmack.com) what is going on in the United States Senate our government is at a boiling Point that's why I created this pressure cooker and wrote on

**54** in the United States Senate we are in a pressure cooker in our nation and our government and that pressure cooker is very close to exploding and I want to talk to you tonight about why that is I want to pull back the curtains for you get your notebooks out get ready to take notes while I educate you on how that democracy is destroying America now to do that I'm going to take you in just a moment inside of the United States Senate when you get there you're going to see children ruling over us you're going to see animals ruling over us there was a day the United States Senate

**55** was a distinguished house it was a house that even if you didn't agree with a certain Senator They Carried a gravitas about them They Carried a presence when they walked boy have we come a long ways from that They Carried a certain demand of respect no matter what side of the aisle they were on they were our esteemed Elders they were the ones that cooled down the House of Representatives they were the saucer that caught the hot coffee that comes boiling out of the Mad House of Representatives but I want to show you right now where we are as a nation and then I'm going to tell you how we got

**56** there and the only way we're going to get out of it it's imperative that you watch this video clip and you see how that we're living in a time where children are ruling over us MMA fighter and current Oklahoma senator Mark Wayne Mullen took issue with a tweet by Teamsters Union Leader Shan O'Brien during a help Committee hearing quit the tough guy act you know where to find me any place anytime Cowboy hashtag little man syndrome this is a time this is a place you want to run your mouth we can be too consenting at adult so we can finish it here okay that's fine perfect you want to do it now I'd

**57** love to do it right now well stand your butt up then you stand your butt up oh hold stop it solutionary no no sit down down no you're a United States Senator sit down okay sit down please okay I never thought I'd say this but Bernie Sanders seems to be the voice of reason here you don't do that no you don't run your mouth unless you're going to answer the call I didn't start it I didn't tweet at him I didn't go after him I have no beef with a guy Sean O'Brien

president of that Union the International Brotherhood of teamsters uh is here uh and Sean I have to say uh I'm sure you're you're

**58** plenty strong but Mark Wayne Mullen is a is a PO former professional MMA fighter what went through your mind when he basically challenged you to a physical fight during a senate hearing yeah you know look what what went through my mind was you're one of a hundred of the most powerful people in the country and you're acting like a 12-year-old in a schoolyard because didn't get your way okay but can I say you're tweeting like a 12-year-old I mean your tweets were were you know you know where to find me any place anytime Cowboy you're making fun of him for not being the tallest Senator I mean you

**59** represent 1.3 million workers do you really think you all continue to you look like a Smurf here just going around and all this stuff now listen Mr chairman you have I'm going to take hold on if we're we're not on time disinformation you have gone on TV and president did something Kevin McCarthy walked by and elbowed me in the kidneys as he walked by you're quite confident this was deliberate come on I'll take a I'll take a polygraph test and have a Kevin take a polygraph test did I hit somebody I did not run and hit the guy I did not kidney punch him I did not shoot anything like that you

**60** didn't shove no I don't know what you're talking about I didn't even know something transpired but reporters of witnesses that it looked like you there was plenty of room for you to walk and that you intentionally hit him there is okay okay not a place show me a reporter who saw that Claudia Gales joins us now she's a congressional correspondent for NPR at witnessed the altercation it was pretty stunning I didn't register it as a serious shove if you will until a few moments into it I was just starting my interview with the congressman with timbered of Tennessee and I was just checking in on

**61** the conference meeting that taken place just a short ways down that same hallway and while we're standing in the hallway suddenly burett lunges towards me and he had been shoved would it looked like for me when I saw when I looked up I could see McCarthy I could see his detail and I felt like I could see an elbow retracting back from McCarthy after doing this shove and so again I thought that was a joke at that moment uh burett even responded in a joking fashion he said sorry Kevin didn't mean to Elbow you but within a second later he was birchett was yelling down and McCarthy you continued to

**62** walk without pausing as if nothing happened and burett was yelling back at McCarthy why'd you elbow me in the back Kevin sorry Kevin didn't mean to Elbow why'd you elbow me in the back Kevin I know I so bad Hey Kevin you got any guts jerk I feel like I was just in high school I feel like I was just witnessing what I used to see in high school animals idiots that's ruling over us now I've seen some of your comments that you're proud of him for standing up and let's not be part of the problem since when did violence since when did violence and the threat thereof become okay when did elbowing

**63** people and and and and and and threatening let's fight right here in front of our children that are watching now we try to tell our children not to act like that and here are their Senators acting like animals and we're okay with it with that's how degraded and devolved we have become as a nation that is where we are you you don't fight a man because he tweeted something this is a free country you can tweet what you want to do y'all know I would be in fights every day if I fought over some of the stuff people say about me We There Is Something Brewing in that in our government and and the

**64** question is where is this mindset taking us as a people the children have taken over the Schoolhouse in Ohio the pot smokers took over the schoolhouse do you know why because democracy is destroying America I want to show you something from an old book it's a book that many people don't read it's an old old book but I would like to read it to you if you would just

allow me to it's a prophecy from an old book written by a Prophet by the name of Isaiah Isaiah was prophesying about end time Israel when he said these words Isaiah chapter 3 and verse 4 I will make boys their officials mere children

**65** will govern them I will make boys their officials mere children will govern My People Israel Isaiah 3 and 5 people will oppress each other means fighting each other man against man neighbor against neighbor the young will rise up against the old the base will rise up against the Honorable in other words the left and the far crazies will rise up against those that's trying to be responsible citizens a man will seize one of his brothers at his father's house and say you've got a cloak you be our leader take charge of this heap of Ruin in other words they'll pick anybody and put them in government

**66** but in that day the brother will cry out I don't have no remedy I have no food do not make me the leader of this people he said it's going to get so bad everyone's going to begin to resign and retire because nobody wants to lead and then what will happen when responsible people don't want to lead anymore then you get ilon idiot Omars then you get a a Cortez and then you get uh bald what's her name uh prec that's what you get children ruling over we're there we're there did you know your Bible prophesied that in end time Israel literally we would have children rule out now miss teacher said

**67** when Trump told oh I got to address this one guys when Trump told the proud boys stand back stand by that's when violence apparently became okay okay no let me tell you what became okay miss teacher here's what became okay whenever proud boys have a right to protest like anyone else does in America at that point there was no violence he when he said stand back that means stop don't do anything else stand by stand back in other words you have a right to protest stand by protest all you want to you see Donald Trump has a right to free speech in America he can say stand by stand back Stand Down

**68** stand up stand around Frank coue wants to know why I'm picking on pot smokers oh let me introduce you to a few of them and you'll understand Frank hello yeah you want me to get a job no I don't I don't need a job everything's good man why don't you come to church and get saved I am saved man I'm so saved I'm beyond saved man oh well but I need a few dollars well why don't you get a job they want to hire me man they want to do a drug test on me man ah y drive me crazy with this stuff whatever happened to decency whatever happened to just Frank coue call it a stereotype all you want a pastor a

**69** church I deal with them every day matter of fact tonight do you know where one of them is Frank come to my church Frank I've got one sleeping at the front door of my church because we will not bother him we're letting him sleep there because we are Christians it all started with pot I don't care what anybody tells you it all starts with pot the Bible said abstain the very appearance of evil and I didn't come tonight to preach on this at all at all but I have come to tell you that we must get back to being a republic there has to be a Revival of the Republic what is it that is setting these

**70** people off so bad in Congress in the Senate everywhere in the streets why is everybody so angry guys I'm not that old I'm 50 but I remember America before the year 2000 I remember America before the year 2000 I don't remember anger I grew up in small town Mississippi there was no anger there was no drug addicts the worst thing you had was an alcoholic I remember I remember America without the anger I remember when you could have your religion I could have mine you could be your political opinion I could have mine and we could go to lunch together y'all know I remember those days does anybody

**71** remember the world I'm talking about you know even Snoop Dog declared today he's through smoking pot why is everyone so angry because the prince of the power of the air do you know that when Satan is angry he affects the airwaves literally his frequency that

transmission it goes all over the world because he controls the airwaves the Bible calls it the prince of the authority of the air the atmosphere have you ever woke up one day and you said today feels off something don't feel right there's something in the what in the air you ever said that before that's because there is something in the

**72** air and in the last 20 years I preached a message called The Return of the Nephilim go watch it on fhtv dotv in the last 20 years there has been a release of Anger from these Fallen Angels because the Bible said they're angry because they know their time is short and listen let me tell you why they're angry because they hate God's law and they hate any law I remember as a young man there was no lawlessness in our town one or two that might do something every now and then but now lawlessness is everywhere do any of y'all remember seeing uh riots where they go in and steal everything out of a

**73** store flash riots no what's happening I'm going to tell you what's happening the Republic is becoming a democracy we are allowing people to take over instead of the law I remember as a child we talked about the rule of law it was a badge of honor in America the rule of law but when you lose your Republic you lose a rule of law and you get a democracy democracy is a rule of the people we're getting to the point now in America that without a religious conscience we will not be able to handle freedom freedom is fickle it can only be had by religious moral people that's the only only only thing

**74** that will save America is a a restoration of the Republic the vast majority of people today are deceived about what freedom is I watched a young man last night coming through an airport he looks suspicious the police came up to him to check him out remember the police no matter what you think about them are the authority to enforce the law okay they go to this man he stands up his chest bows out to him he says H bruh H bruh no brh y'all ain't gonna do me that brh no brh y'all no brh I sounded like an animal no bro no bro you ain't doing that bro animals animals animals when a police officer

**75** walks up to you shut your mouth and say yes sir how can I help you officer and if he's doing you wrong shut your mouth until you get to court we are living in a generation where no one fears the law because we don't know what freedom is this man told that officer I've got freedom of speech bro no no no no no when a police officer tells you to shut up you just lost that freedom until they are done with you that's it you don't get that freedom back till you go to court you've got we're living in a generation whether it's in the church same thing in the church everybody wants to go to church they

**76** don't want nobody to have authority over them oh they all want a pastor but they don't want a Shepherd they don't want any Authority whatsoever they want freedom but you see you cannot be free until you know what freedom is you cannot avoid slavery unless you know what slavery is are you sure tonight my dear friends that you know what freedom is I want to read you a verse of scripture 2 Peter 2:19 they promised them freedom but they themselves are slaves of corruption for whatever overcomes a man to that he is a slave he said the world offers you Freedom come on get out of the church where

**77** they put bondage on you they tell you what to do and what not to do come on out here where we are and Peter said when you get out there it is slaves that are offering you Freedom they're all bound by something whatever it is they're bound and they are slaves let's talk about alcohol you have a freedom to drink alcohol now in the church we condemn alcohol why we don't want you to be a slave to it but they like come on out here come on out here and drink Brother come on you're a free American you are a grown man do what you want to do you get your freedom get out from under that cult that tells

**78** you what to do and you come on out here where we can be free HH you want to be free with us anybody want to be free with us let's all be free everybody come on out here and be free with

us let's all have a little Freedom you know about like that right there look I'm free bro ain't nobody going to tell me what to do bro I'm a free man you're a fool you're not free unless you are free in Christ and you're walking in the Commandments of God and the law of the land people I'm free to drink and you can do it all day long but you will become an alcoholic then you will crave alcohol and you'll be

**79** miserable without it while you're screaming I'm free man is that freedom how many of these people have gotten hooked on pot and drugs because they longed for Freedom the only way to be free is to come under the control of the law of the land and the law of God otherwise you can scream your free while they're handcuffing you and while you're in prison I'm free man no no you're deceived many people consider it freedom to destroy their body with drugs that's not Freedom they're totally enslaved America is overcome by a drug problem but it's not a drug problem it's a freedom problem they want

**80** freedom they don't want and why do you think why do you think brothers and sisters I said democracy is destroying America go to Ohio a good red state do you know why now drugs are legal I'm sorry abortion the other State uh that I talked about Tuesday night drugs are legal a Portland Oregon they've got freedom now go do what you want that's because of a democracy people are voting for their vices people are voting for their vices whereas in a republic they were The Gatekeepers that that made decisions from up here instead of out of that that Vice but when you you tell the people come vote come

**81** vote it's a democracy come vote no no no our founding fathers were afraid of us they knew that we would become animals they knew we would become slaves to our passions just like Rome did just like Greece did they knew it was coming so they created a constitution that allowed us to have representative government to protect us from us I could go on and on I could talk about pornography free to watch pornography you are free until you watch it and then you just you just took your children into bondage your wife everyone else is in bondage now because of your freedom how much longer can we handle

**82** freedom in America it started in the year 2020 in the election of Al Gore and my time is gone I'm rushing please stay with me I beg you Al Gore George W bush something happened in 2020 that was a precursor I'm sorry something happened in 2000 that was a precursor to 2020 election Integrity there was an election and I'm not going to go into it many of you remember what happens what happened was how did George Bush win that presidency because the FL Florida Supreme Court messed up the Florida Supreme Court did something that seemed fair and it sounded great but it was illegal and the US Supreme

**83** Court overrode the Florida court for creating laws no matter how fair it looked in 2020 it looked so fair for the secretaries of state to tell everyone that was at home with covid you're indefinitely confined send in a mail and ballot that's fair it might have been fair but it was illegal and in a republic the law is supreme in a democracy people are Supreme in Florida all they did was was that the uh the Florida Supreme Court they said in uh Article 2 Section one of the uh of the US Constitution says that the judges cannot make new election laws well when the Florida Supreme Court took up the

**84** case here's all they did they said we're going to do a recount in this area and that area a manual recount sounds fair right no it's illegal because only the legislature can determine election laws only they can write election protocol elect that's in the Constitution the Florida Supreme Court was just trying to be fair ladies and Gentlemen people don't rule this nation the law of the land does this is why in 2020 we said Foul Play Hold On no everybody cannot vote absentee no because the legislators can only decide that that's why without a Revival of the Republic without a Revival of the

**85** Republic we cannot handle our freedom much much longer the purpose of the courts is to

interpret law not to enforce it or to make laws definitely not to break the law this Florida chaos gave us insight into what will happen all across America if we don't wake up we are evolving into an anarchy without government our Senate is an anarchy our leaders are an anarchy why democracy is destroying America the Su so the Supreme Court of Florida should never have intervened at all so they get to the SU Supreme Court the Supreme Court says hey there's no law that says there must be a manual recount

**86** you don't make law Supreme Court sorry George Bush is the winner that was the law of the land but the problem with our nation now they want an evolving or a living Constitution and a living law why because humans hate law it is the law that keeps us free judges 21 and 25 says every man did that which was right in his own eyes that was the condition of the end time we will all do what's right in our own eyes let me tell you something darling watch this carefully down this railroad track comes your opinions right there watch it it's going fast down the railroad track that's your opinion okay the

**87** moment it meets the word of God or the law of the land it explodes your opinion no longer matters what does the law say what does the word say in the 2020 election the law said you can only vote absentee ballot if you meet these three criteria any other vote was illegal I've never talked about machines and this and that I've told you what was illegal this is not a small problem this is a plague we have to understand this we have to know that our leaders are like little children and they're reasoning they're acting like babies a child has no history to draw from many of our leaders have

**88** rejected the lessons of History our greatest secular source of guidance a good understanding of History gives a leader a vision into the future Winston Churchill warned us about Germany in the 1930s why did he do it because he remembered Germany how they acted in 1870 listen the only thing that doesn't change is God man can man God and man their two Natures never change except by the power of the Holy Spirit children are Guided by emotions when I saw these Senators wanting to fight in front of my children I saw men controlled by their emotions and I'm so sad to say Bernie Sanders is the

**89** only one that said anything with sense at that moment sir you are a United States Senator act like it why because with great responsibility with great honor and D comes great responsibility the prophet Isaiah said the children will rule they rule in the homes right now all over this nation children rule the homes if you don't believe me look at Mom and Dad trying to get their children to every activity they can find except Church let's get them in volleyball let's get them in football let's get them in this let's get them in that why they want they don't want the children to get bored bless

**90** God or the children will run the or R rule the house children are are naturally Lawless they're Guided by their emotion A house divided against itself cannot stand but where is the leader today who like Mr Abraham Lincoln will step up and say today that the solution is the law of the land Al Gore conceded the election with these words I strongly disagree why because he believes in a living Constitution many Christians that I know of believes in a living Bible they believe it should adapt with the times my dear friend there's no such thing as a living Constitution or a living Bible those are

**91** two books that are closed they are definite they are the rock of galter upon which we stand and the torrential tides of Time have have never one time altered the boundaries of the River or the Sea of which it is confined to stay in the law of this great Republic it must not it cannot and it will not change for me or you or anyone else without the Bedrock we are falling off of the rock I call you tonight if you've never believed in the Republic you must become an evangelist of the Revival of the Republic we must save America from democracy we must preach the Republic we must reach for the

**92** Republic we must stand as a republic we must honor the law we must fight for what's left forget what we've lost and we must fight for what's left good night God bless you everybody [Music] if tomorrow all the things were gone I worked for all my life and I had to start again with just my children and my wife I take my lucky stars to be living here today this flag still stands for freedom and they can't take that away and I'm proud to be in America where at least I know I'm free and I won't forget the men who died who gave that right to me and I gladly stand up next to you and defend her still

**93** today there ain't no doubt in love this man God Bless the [Music] [Applause] USA from the lakes of Minnesota to the hills of Tennessee across the plains of Texas from sea to shining sea from Detroit down to Houston and New York to LA where this Spide in every American Heart and it's time we stand and [Applause] S I'm proud to be an American where at least I know I'm free and I won't forget the men who die you gave that right to me and I gladly stand up next to you and defend her still today cuz there ain't no doubt I love this man God Bless the USA and I gladly stand than to you and defend her

**94** still today cuz there ain't no doubt love this land God bless for [Music] [Applause] you
