

# Sociology

Week of April 14-17, 2020

## Assignment #1

-In the social sciences, a **social group** can be defined as two or more people who interact with one another, share similar characteristics, and collectively have a sense of unity.

### **Assignment:**

Name and describe the “social group” you have been quarantined with. You can make up a name for your group, but tell me who is in your group and how they interact with one another. Be honest about the interactions of your group. I'll give you mine as an example....

### **Example:**

Name: Coach U's Crazy Quarantine

My group consists of me, my husband, and my daughter. (She'll turn 3 on April 13th) This group is crazy. This group is full of laughs but can also be frustrating sometimes. The 3 year old in my group is pretty loud and always wants to watch Aladdin. She's so funny 90% of the time until she decides to throw a 2 year old tantrum.... Then it's not funny. I love my group! Quarantine has not been so bad, but I am ready to see my people!

### **Example:**

Name: \_\_\_\_\_

My group consists of \_\_\_\_\_
