Dear

Computing education in Queensland schools is undergoing rapid change to keep up with innovations in <> but many of our teachers are struggling to keep up with the changes you keep making!

We are hoping you can help and we are bringing Queensland teachers together for a weekend in their school holidays for a conference to make this easier. It will be on the 29th and 30th of June 2019 on the Gold Coast campus of Griffith University (Southport).

The 2019 CreativITy conference has brought together several hundred of Queensland's top computer science and computing teachers in primary and secondary schools every year since 1981 and is organised by volunteer educators in the not-for-profit Queensland Society for Information Technology in Education (QSITE).

One of the major themes for 2019 is the use of (Drones/xReality/Robotics/etc.) and Queensland computing teachers would appreciate your support in preparing our schools to engage with this technology and prepare students for the world you are creating.

The first step is to help teachers understand what can be done with (), the opportunities you are opening in this field, and how you may be able to support Queensland schools and students to achieve this.

We know you are busy transforming the world, but we hope you will be able to help school education, while the benefit may not be seen immediately, by the very nature of what you are doing, we suspect you have a longer-term vision than most.

While we appreciate any support you can give, there are some specific ways you can help:

- Join our conference <> theme organising committee (3-4 one-hour meetings held online to organise the keynotes, sessions, site visits, hackathons, etc. for the theme)
- Help sponsor the conference (Gold \$5000, Silver \$3000 and Bronze \$1000 sponsor options)
- Present at the conference (we can pair you with computing teachers to contextualise <> for schools)

Local

Since 1981, the CreativITy conference has been held annually around Queensland, but on the Gold Coast only once each decade. Teachers are giving up their holiday time to stay up to date with changes in your industry, and we hope you can take this opportunity to support them to ensure school computer education is as relevant as possible.

Invitation to join the EduTech board

Dear

Computer education in Gold Coast schools is undergoing rapid changes with the introduction of the K-10 Digital Technologies and Years 11 and Digital Solutions, in addition to ongoing developments in the use of ICT to support teaching and learning.

You are invited to join the Gold Coast EduTech board with the aim of supporting Gold Coast schools by coordinating the efforts of governments, businesses, universities and organisation to support computing education in our schools.

The board meets once a month for approximately 2 hours and supports the development of links with industry, professional development, competitions, and conferences for Gold Coast students, teachers and schools.

The Gold Coast EduTech board is supported by the Queensland Society for Information Technology in Education Gold Coast Chapter (QSITE), the Australian College of Educators Gold Coast Region (ACE), and the Teacher Education Industry Advisory Group for Griffith University Gold Coast (TEIAG).

In 2019 the Gold Coast EduTech board is assisting QSITE in the hosting of the CreativITy conference 29/30 June on the Gold Coast campus of Griffith University.

We look forward to your joining the Gold Coast EduTech board and what we can achieve together to improve computer education on the Gold Coast.

The board meetings are held in the Helensvale Library meeting room.

Wednesday 20 February 4pm – 5.45pm

Wednesday 20 March 4pm – 5.45pm

Wednesday 17 April 4pm – 5.45pm

Wednesday 15 May 4pm – 5.45pm

Wednesday 19 June 4pm – 5.45pm

Please RVSP to the board secretary Michele Pikunic mlpik0@eq.edu.au

CreativITy 2019 will be on Saturday 29 and Sunday 30 of June, the first weekend of the school holidays and during the university mid semester break. The conference is priced to encourage schools to send multiple teaching groups, and for individual teachers to self fund attendance.

CreativITy 2019 is the annual state conference of the Queensland Society for Information Technology in Education (QSITE) which has held conferences annually since 1981. Bringing together the leading educators involved in ICT and computer science in Queensland schools, CreativITy 2019 is a unique opportunity to access the key influencers for classroom and school edtech resourcing decisions in Queensland.

CreativITy 2019 expects registrations of 150-200 participants, with capacity for up to 300. It is anticipated that 40% will be experienced ICT and computer science educators from secondary schools, 30% experienced primary school teachers engaged with ICT and Digital Technologies, 10% school and sector leaders with responsibility for education technologies, and 20% relatively inexperienced and pre-service teachers.

In the main, participants are attending to learn about new approaches and technologies being used to teach Digital Technologies from Years 1 to 10 and the new QLD senior computer science curriculum, and ICT technologies to support teaching and learning. In particular, specific participants will be interested in edtech resources to support robotics, drones, virtual reality, and creative practices.

CreativITy 2019 is structured around such themes:

Robotics

Creativity

Drones

Virtual Reality

Digital Solutions 1&2 (new Queensland Year 11 and 12 computer science course) programming focus

Digital Solutions 3&4 (new Queensland Year 11 and 12 computer science course) cyber security focus

Attendees will sign up for a theme each day and remain with the same group as they attend specific keynotes, presentations, an excursion to a local industry or theme park associated with the theme, a practical workshop, and a practical hackathon.

A major focus of CreativITy 2019 is the experiential nature of the themes, each like a mini study tour.

Sponsors and exhibitors are encouraged to make contact with theme organisers to see how you may support these themed experiences.

The conference will be held on the Griffith University Gold Coast campus in Southport using Building G30, G23, and G42, with an interconnecting undercover food court area. Exhibition spaces will be located in the G30 foyer and adjacent rooms, with direct same level access to Science Road for bump in/out, and secure rooms available for Friday evening bump in between 5pm and 7pm, with exhibition access from 6am for an 8am start on 29 June. Bump out can commence from 3:30pm on Sunday 30 June and must be concluded by 5:30pm.

The conference dinner will be held at Galaxy Seafood and Mediterranean Restaurant Southport on Saturday evening and Gold (2) and Silver (1) sponsors are welcome to join the celebrations.

I am the chair of the organising committee for the CreativITy 2019 conference to be held on the Gold Coast on June 29 and 30. One of the themes for the conference is Virtual Reality in Education, and we are looking for leaders in this space to join the team pulling together the theme activities. As you are very active in this area, would you be interested?

Details of the conference are available at www.creativity2019.com with an organising page for the VR Theme Team.

CreativITy 2019 is the conference of the not for profit professional teacher association, Queensland Society for Information Technology in Education (QSITE) and brings together 150-200 of Queensland's leading computer education teachers each year.

From a commercial perspective, Holoverse might wish to support the conference as a sponsor or exhibitor, and I have attached the sponsorship package details

As a local Gold Coast company, I would also like to extend an invitation for you to join the Gold Coast EduTech board with the aim of supporting Gold Coast schools by coordinating the efforts of governments, businesses, universities and organisation to support computing education in our schools.
