

The Trump Administration Drives America Off The Road To Success

Are you furious yet? The government and the president are deporting innocent people, and Trump is president again even after an impeachment in his first trial, and found guilty of a long term illegal tax fraud. The Trump Administration is destroying America due to its character, policy, and actions.

Trump's deportation policy is only hurting America. ICE (Immigration and Customs Enforcement), is tearing apart families and in no way, shape, or form, is the Trump Administration making America "safe again" nor "great again". People including Republicans speak out against federal law enforcement, wanting to change the fact that they might not see their families ever again if kidnapped or killed by ICE. ICE has harmed and killed more than 40 people, some facing neglect in detention centers, some shot and killed who were innocent. People speak out against ICE, and remind America how these deportation policies are not helping. One of these people is Windsor Mann, who writes non-bias articles based on facts about the deportation policy. "People were furious over the Trump administration's policy of separating children from their parents at the border. Even some Republicans voiced their displeasure (Mann)." This piece of evidence is stating that the people of America aren't fond of this foreign policy, and speak out against it. Overall, people dislike the Trump Administration's deportation policy.

Trump's actions landed him with an impeachment in his first trial, given the fact that his administration is hurting America. (3) People who are pro-MAGA, still believe Trump is a good fit despite the multiple sources of evidence that he got impeached twice in his first term, due to control abuse over congress. Some people who are pro-MAGA, think that the president holds all power and can do whatever they want. However, congress, the Bill of Rights, and the 27 amendments come first. "Despite a first term that ended with an impeachment trial followed by other legal issues, many Republicans viewed Trump as a favorite(Gale Library)." This piece of evidence states that many Republicans still view Trump as a good representative, despite impeachment in his first term. In all, just because Trump is president, doesn't mean that he holds all power and can do whatever he wants.

The Trump Administration is not eligible to serve America, while found guilty in correlation with tax-fraud. Criminals aren't eligible to run a country. A fifteen year tax fraud comes with big consequences, such as imprisonment. The Trump Organization, a multi-billionaire organization, has no excuse to not pay taxes while getting away with it for fifteen years without consequence. "A Manhattan jury found the Trump Corporation and Trump Payroll Corp., two companies belonging to the Trump Organization, guilty of multiple charges in connection with a 15-year criminal tax-fraud scheme(Gale Library)." This piece of evidence states that the Trump Organization was found guilty of tax fraud by a jury from Manhattan, given the fact that the Trump Organization has broken the law.

Even though some Republicans still view Trump as a favorite, he is doing no good for America. Some people voice their opinions of Trump's lies. The Trump administration is pulling America back, restricting us from achieving great things. Hopefully, an impeachment will happen soon before we fall into darkness. We, the people of America have rights that will not be taken away. Immigrants run America, and a thirty-two count felon should not take hold of America. The Trump administration is destroying America, and you have huge reasons to be furious.
