

Geoscience Leadership Organization or GLO

This organization is open to all Texas Tech University graduate and undergraduate students who have an interest in Earth science. We are here to offer support, guidance, and additional resources so that all students, regardless of background or circumstances, may be successful in their academic and professional careers.

Our goal as a student organization is to create a network of support for our students and to create a more inclusive environment within the program, where every student feels a sense of belonging and purpose.

We plan on having volunteer, social, and professional events throughout the year that further and support our mission. We hope our group establishes a dialogue among students, faculty, and professionals that stimulates the growth of a scientific community as diverse as the people it serves.

Organization Events (become a member and follow us on social media to stay up-to-date with club communication. Link to membership form and social media accounts in Linktree main page):

- Mentorship Program
- Speaker Series and Lunch Meet and Greet with visiting Speakers
- Young Alumni Meet and Greet
- Field Trips
- Professional Development Workshops
- Ethical Training and Discussions
- Fundraisers and Socials

We are a registered student organization with the Student Government Association at Texas Tech University.
