

Create 20 Clickbank Accounts Safely

If you're reading this document, it means you've realized a fundamental truth: Scaling in MMO Marketing cannot be achieved with a single account. Those earning 6-7 figures monthly all share one thing in common: They operate dozens, even hundreds of accounts simultaneously.

But here's the biggest challenge: How do you prevent ClickBank from discovering that all accounts are managed by one person? This is precisely why 90% of beginners fail within their first month.

Fatal Mistakes in Multi-Accounting

From real-world experience with thousands of marketers in MMO Marketing, here are the most common mistakes:

****Mistake #1: Believing VPN/Proxy is Enough****

ClickBank doesn't just check IP addresses. They analyze your entire browser fingerprint. VPN only changes IP, but Canvas fingerprint, WebGL, Timezone remain identical.

****Mistake #2: Deleting Cookies and Cache****

This method has been obsolete since 2015. Current platforms use stateless fingerprinting - they don't need cookies to track you.

****Mistake #3: Using Incognito Mode****

Incognito only deletes local history, but doesn't change any fingerprints. ClickBank still sees you exactly as before.

****Mistake #4: Using Chrome Profiles****

Chrome profiles only separate cookies and extensions, but all profiles still share the same base browser fingerprint.

Multilogin Cloud Phone: Next-Level Protection

Beyond antidetect browser, Multilogin also provides ****Cloud Phone**** solution - virtual mobile devices for situations requiring mobile fingerprints.

Use Cases For ClickBank:

****1. Mobile-First Platforms****

Some platforms like TikTok, Instagram prefer mobile traffic:

Cloud Phone provides real mobile fingerprints

iOS and Android emulation

Native app behavior simulation

Mobile IP addresses

****2. SMS Verification****

No need to buy hundreds of SIM cards:

Virtual phone numbers

Receive SMS online

Disposable numbers for testing

International numbers support

****3. App-Based Activities****

For tasks that cannot be done on web:

Native app features

In-app purchases

Push notifications

Location-based features

****4. Ultimate Security****

Combine browser plus cloud phone:

Web activities on Multilogin browser

Mobile activities on Cloud Phone

Cross-platform consistency

Maximum anonymity layer

Especially useful for MMO Marketing when running both desktop and mobile campaigns simultaneously.

FAQ: Frequently Asked Questions

****Q: Is Multilogin legal?****

A: Completely legal. Multilogin is a tool for multi-account management, used by agencies, businesses, and marketers worldwide. However, users must comply with TOS of platforms they use.

****Q: Do I need technical knowledge?***

A: No. UI is very user-friendly. Profile setup takes 5-10 minutes. Detailed docs and tutorials available.

****Q: Compare with Gologin, Adspower?***

A: Multilogin is premium in pricing but superior in technology and stability. In {niche}, lowest ban rate compared to competitors.

****Q: Do I need proxies?***

A: Yes, highly recommended. Residential proxies (\$3-15/GB) are best for {platform}. Multilogin doesn't include proxies.

****Q: Refund policy?***

A: 3-day money-back if not satisfied. No questions asked.

****Q: Update frequency?***

A: Multilogin updates regularly following platform changes. Auto-update in app.

Start Today

Every day you delay is a day:

Competitors are scaling while you're still struggling

Your accounts risk being banned anytime

Revenue potential limited by 1-2 accounts
