A Visit by Paper Plane Project 纸飞机的拜访

AJLA Chinese 6th & 7th & 8th Grade

"Due to the Coronavirus pandemic in the beginning of 2020, people are ordered to stay at home to prevent the spread of the virus. All schools in the United States were closed in the mid of March and moved to the non-traditional instruction (NTI).

Although the virus separates teachers and students physically, love is the link that holds our hearts together. Under the leadership of Yan Wang, the Fayette County Public Schools Lead Chinese teacher, eighteen teachers (see the names listed below) from seven states along with their families and friends created a video "A Visit by Paper Plane". While we maintain a "social distance", a simple paper plane becomes a messenger."
