

# Milestone Deliverable Review Report

**Deep Funding Round:** 3

**Project code:** DFR3-NEW6

**Project title:** AI-Enabled full value audit and dashboard for sustainable exponential organizational growth

**Milestone number:** 2

**Milestone deliverable:** Foundational Design And Strategy Development

<https://drive.google.com/drive/folders/1E2B1G7mri8i0wZU1c9hkD96HWamfLWEg?usp=sharing>

**Date:** May 23, 2024

**Status:** Accepted

**Feedback (Why accepted, why rejected?):** The team manages to present the deliverables committed to in the contract for Milestones #2, Foundational Design and Strategy Development. Attached we find a 16-page document with detailed architectural design work and a detailed development strategy.

In the link attached to the elements presented we find complete AI Architecture Design Research and Findings for Value Audit App: This document contains the below artifacts.

Language model evaluation criteria, Model comparison and analysis, Dataset requirements and selection, Considerations of performance scalability, data management, security, and privacy.

UX Application Flow

As indicated in the following milestone descriptions, in the next phase of development, AI model

training and Arch development we'll have the chance to see the development unfold and we will have the first video images explaining the implemented architecture. Great stuff, looking forward to seeing how the development brings the different functionalities into life on the next steps.

**If rejected, suggested changes:**
