

Pfaff Mastery Classes Supply List

Description: Pfaff mastery classes aim to give you a thorough overview of the operation of your machine, navigating the sewing computer (where applicable), and basics of the most useful accessories. We start from zero, as if you have never touched the machine! It is often a good idea to follow these up with other non-Pfaff-specific classes like Quilt Basics or Beginning Machine Embroidery, to get a more detailed understanding of sewing and embroidering techniques.

Supplies: For all classes, plan to bring

- your sewing/embroidery machine, the embroidery module (for embroidery classes), and your power cord and foot pedal.
- the needle plates, sewing feet, spool caps, spool pins, knee lift, and/or other accessories that came with the machine. When in doubt, bring it all!
- a spool of sewing thread (or plan to purchase one before class), an empty bobbin, and a notebook and pencil, if you plan to take notes.

I will provide fabric. See you there!
