

Create Animated Slide Presentations with Voxdeck AI

Step 1: Go to [Voxdeck](https://voxdeck.ai)

Visit Voxdeck and sign in with your Google account.

Step 2: Enter Your Presentation Idea

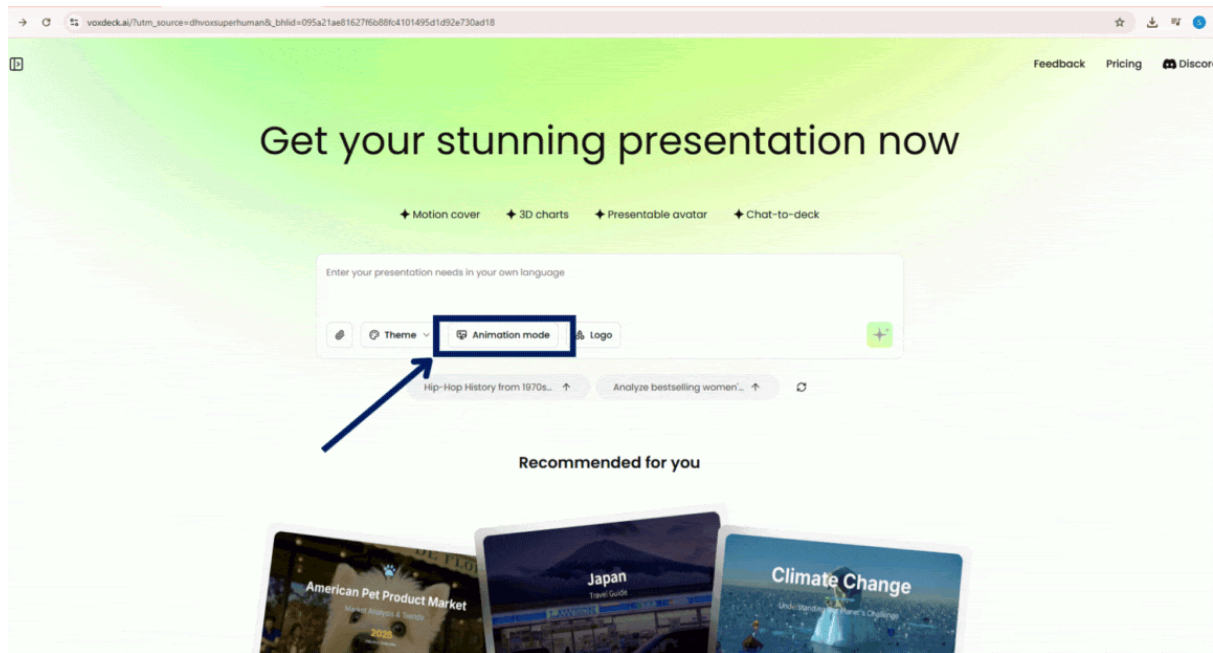

Type your topic, project idea, or video link into the text box.

You can also upload reference files — such as .txt, .pdf, or .docx — that include your notes or script.

Once entered, Voxdeck will analyze your content and get ready to build a presentation.

Tip: Turn on Animated Mode to bring your slides to life with smooth transitions and engaging motion effects.

PROMPT: Create an 8-slide presentation titled “The Future of Work in the Age of AI,” with short headlines, 2–3 key points per slide, and simple visuals showing how automation, new roles, and future skills are reshaping the workplace.

Step 3: View Your Result

Once Voxdeck generates your presentation, you'll see your complete deck with slides and animations.

- Preview your slides
- Edit content or visuals
- Download or share instantly

Make quick tweaks before presenting or sharing with your audience.

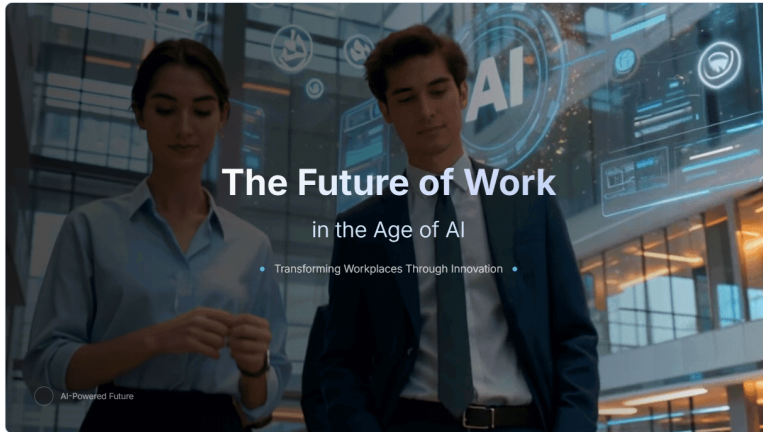

Step 4: Present and Share

Once your slides are ready, preview your full presentation with animations and speaker options.

-  Start speaking with the built-in avatar
-  View in full screen
-  Share or download your deck

Bring your AI-powered presentation to life — ready to present anywhere.
