Want to make sure your necklace piece pops out? Choose jewelry display tools in neutral monochrome colors like this stand. It comes in black velvet and leatherette, as well as white leatherette, making it a perfect canvass for dainty pieces and big, bold necklaces alike. These colors also make them versatile props to have around for the many retail display themes you can come up with.

Now this one's in a different league than the previous two choices. For a darker, more masculine aesthetic, this wooden necklace stand is a perfect choice. Not only that but with its multiple slots it can carry more than one necklace at a time. It also has adjustable platform support at the back so you can find the right angle to display your merchandise.

Clean with a fresh, youthful appeal, this display stand is perfect for marketing towards a young buying audience. Lightweight and sturdy, it can hold up to six necklaces at a time, making it a wise and economical choice for both business owners and jewelry collectors. It also has multiple pegs at the back which is used for adjusting the stand's wooden supporter. This means you can display your merchandise from different angles.

Traveling jewelry salespeople need devices that are collapsible to make them easy to transport. One such type of device is this necklace display stand. The actual frame is removable from its base making it the perfect device to take for travel. It is also sturdy and dependable as it also features multiple pegs at the back which holds the necklaces (up to eight pieces, to be precise) in place
