

# LASHES BY CLARA

122 NEDERLAND AVENUE

NEDERLAND, TX 77627

409-728-0640

Arriving for your appointment:

- Have a seat in the front of the shop. Text clara saying you have arrived & she will be out to bring you back shortly after you arrive.
- There is a 15 minute grace period. After 15 minutes your appointment will need to be rescheduled & a \$25 fee will be charged to your card on file. Appointments are usually back to back and I have to remain on time for the next client.
- Please feel free to use the restroom before your appointment begins. The restroom is right across the hall from Clara's door.
- Inspiration photos are helpful! Show Clara pics of the lashes you love so that you are both aware of your lash goals.

FAQs:

- How often do you need to fill your lashes?** *Every 2-3 weeks.*
- How long do lash appointments take?** *New sets are 2 hours & fills are 1 hour.*
- How long has Clara been doing lashes?** *She has 3 & a half years of experience doing lash extensions.*
- Can you get lash extensions wet?** *Yes. You only have to keep extensions completely dry for 24 hours following your appointment.*

**-What is the difference between classic, volume & hybrid extensions?**

- ***Classic extensions: Single extensions that are applied to one natural lash. Stiffer in texture. Follow the pattern of your natural lashes. Good for clients with a large amount of natural eyelashes.***
- ***Volume extensions: Multiple extensions in a fan formation applied to one natural lash. Softer in texture. Create a more dense look. Hide imperfections in the natural lash pattern. Good for clients with fewer natural lashes.***
- ***Hybride extensions: A combination of classic & volume extensions. Softer in texture. This is the most customizable option of the three. You can create natural or a bold look with hybrid extensions. Hybrid lashes can be applied to almost any client.***
