

I'll See you Then

(Harpian/Walter)

I think I got used to it, just listen you and your guitar
Having fun with nothing to do, or just keep singing along, acting like really rock stars
24 hour seems to never be enough, and the schedule sometimes can be really tight
But you always come and say I found a way I found a way
But time has come is time to say good bye

But it's not like that is not the last good-bye
Tomorrow is a new day and I'll see you again
This is not for good my brother
I just think is time to say I'll see you then

Maybe you don't know this now but I'll be with you until the end
And we're gonna fly to the sky and beyond
Fly until we catch our dreams and make them all come true
But still time has come it's time to say good bye.

But it's not like that is not the last good-bye
Tomorrow is a new day and I'll see you again
This is not for good my brother
I just think is time to say I'll see you then

No matter what comes or what we have to do
You know I'll always be with you
I'll be with until the end
Cause I just think is time to say I'll see you then

But it's not like that is not the last good-bye
Tomorrow is a new day and I'll see you again 2X
This is not for good my brother (I'll see you then)
I just think is time to say I'll see you then (I'll see you then)
