

ART HISTORY CLUB
RM. 342
MS. VINES

Friday's
2:30-3:30pm
Club Description: Come join us to learn about various visual artworks being created throughout time. We will cover from the very beginning of recorded time up to present day artwork being produced. These artworks include 2D and 3D work as well as architecture. We also cover a wide range of art materials at the same time. Then as a bonus, field trips to view artwork in person at art venues will be included for those who would like to travel around the Boston area to art shows that will pop up a few times during the year as well to attend if desired. Again, come join the fun each week and/or pop in anytime you are free. All are welcome!
