

GPA Appeal Form

Please answer the prompt fully and email a minimum one-page document (double-spaced, 12-point font) to hpao@sdsu.edu [Include in the subject line: 25/26 APP GPA APPEAL]

In order to understand your unique pre-health journey, in terms of your academic progress, please include the following details in your response:

How have you proven that you are academically capable of handling the rigorous scientific course load of your health profession graduate programs?

Please use specific examples where you demonstrated overcoming academic difficulties and the resources that you used.

Include any external factors such as financial distress, family illness/death, personal illness, and any other challenges that affected your GPA.

Note: Please keep in mind that, statistically, applicants below a 3.2 GPA typically do not get accepted into a health profession graduate program. Number of activities and depth of commitment to those activities will not outweigh a noncompetitive GPA.
